INSTRUCTIONS TO MARKERS

1. Markers are required to work through the question paper before the marking guideline is discussed.

2. Accuracy is marked with a red / and manipulation is marked with a blue X or ✓. This is to ensure that candidates are rewarded for tasks done well, e.g. if the accuracy counts FIVE marks, but the candidate made 10 accuracy errors, he/she only loses FIVE marks for accuracy and is still rewarded for the manipulation that was done correctly.

3. To aid with the marking process, it is suggested that a transparency template is made of the breakdown of marks at the beginning of the marking guideline for each question. Use this template to ensure that all markings are made at the same place on the printout. This will also aid with the moderation process. Accuracy is marked negatively with a red /. The marker writes the corresponding number in blue (manipulation) and makes a tick (correct) or X (error) next to the number.

4. ALL irregularities are marked and marks are transferred to the cover page. The word IRREGULARITY is written next to the percentage and an irregularity report is completed.

5. The marks achieved for each question is written on the printout of each question in the following table format:

	A	M	T
Write the total possible mark on this line			
Write the candidate's errors on this line			
Write the candidate's mark achieved on this line			

6. The candidate's total mark is written on the cover of the EXAMINATION FOLDER next to the corresponding QUESTION NUMBER.

7. If a candidate handed in a printout, but achieved 0 for the question, then 0 (zero) is written on the COVER next to the QUESTION NUMBER.

8. If a candidate did NOT hand in a printout, a line is drawn across the block next to the corresponding question number.

9. ALL printouts must have the candidate's EXAMINATION NUMBER and a WATERMARK. If a candidate handed in a printout without an EXAMINATION NUMBER AND A WATERMARK, the question MUST BE MARKED and reported as an IRREGULARITY.

Copyright reserved

10. ALL irregularities are marked and marks are transferred to the COVER PAGE. The word IRREGULARITY (IRR) is written next to the percentage and an irregularity report is completed.

11. Only mark what the marking guideline indicates and do NOT penalise candidates for automatic formats or styles used, for example in Office 2007.

STUDY IS THE KEY TO SUCCESS

- *Sign a contract with yourself to stay committed.*
- *Record the marks you are aiming to accomplish.*
- *Draw up a study plan.*
- *Identify time-wasters.*

1. **Avoid last-minute studying.**
2. **Break your studies up into sections to make studying systematic.**
3. **Remove all distractions and interferences.**
4. **Do not use substances.**
5. **Get enough sleep.**

SLEEP IS COMPULSORY FOR GOOD PERFORMANCE

The key to learning something new is repetition over a period of time and lots of sleep in between.
