IMPORTANT INSTRUCTIONS TO MARKERS

1. Markers are required to work through the question paper before the marking memorandum is discussed.

2. Accuracy errors are marked with a red pen (/). Accuracy errors include spelling errors/keying in errors, omissions and repetitions. Uppercase, lowercase and letter spacing are marked as manipulation errors and not accuracy errors. If 10 marks are allocated for accuracy but the candidate made 12 accuracy errors, he/she only loses 10 marks for accuracy and is still rewarded for the manipulation that was done correctly.

3. Manipulation errors are marked with a blue pen (X). ALL markings must be made on the printout in the same position as indicated on the marking guideline. This will also aid with the moderation process. The marker writes the corresponding manipulation number in blue and makes a tick (correct) or X (error) next to the number.

4. The marks achieved for each question is written on the printout of each question in the following table format:

Write the candidate's mark achieved on this line -

Write the total possible mark on this line -

A	M	T

5. The candidate's total mark is written on the cover of the EXAMINATION FOLDER next to the corresponding question number.

6. If a candidate handed in a printout, but achieved 0 for the question, then 0 (zero) is written on the cover next to the corresponding question number.

7. If a candidate did not hand in a printout, a line is drawn through the block next to the corresponding question number.

8. If a candidate handed in a printout without an EXAMINATION NUMBER and a WATERMARK, the question MUST BE MARKED AND REPORTED AS AN IRREGULARITY.

9. ALL irregularities are marked and marks are transferred to the COVER PAGE. The word IRREGULARITY is written next to the percentage and an irregularity report is completed.

HIGHER EDUCATION AND TRAINING HIV/AIDS PROGRAMME

The Higher Education and Training HIV/AIDS programme or HEAIDS was established in 2000/2001. The programme came into existence as a result of a partnership between the Department of Education (DoE), South African Universities Vice-Chancellors Association (SAUVCA) and the Committee of Technikon Principals (CTP). Its main function is to develop and support HIV mitigation programmes at South African universities and Technical and Vocational Education and Training colleges.

HEAIDS STATEMENT OF INTENT

The Higher Education sector commits itself to responding to the challenges posed by the HIV and AIDS pandemic through all aspects of its core mission – teaching and learning, research and innovation and community engagement – and to mitigate its impact on Higher Education Institutions and, correspondingly, on society as a whole.

Table 1: Comparison of HIV prevalence for the combined Higher Education population with other surveys

HIV prevalence	Age group	Study date	Data source
2,9%	18–49%	2008/09	Higher Education institution (2010)
16,9%	15–49%	2008/09	HSRC Study (Shisana 2009)
12,7%	Less than 18 years	2004/05	Educators' Study (Colvin 2007)

Source: HEAIDS

As part of its HIV reduction strategy, HEAIDS provides access to comprehensive prevention programmes for staff and students across all campuses. Elements of which include the following:

- HIV/AIDS, STIs and TB allowance campaigns
- HIV Counselling and Testing (HCT) programmes
- Peer education and health promotion activities
- Condom use and distribution
- Male medical circumcision
