IMPORTANT INSTRUCTIONS TO MARKERS

1. Markers are required to work out the question paper before the marking guideline is discussed.

2. Accuracy errors are marked with a red pen (/). Accuracy errors include spelling errors/keying in errors, omissions and repetitions. Uppercase, lowercase and letter spacing are marked as manipulation errors and not accuracy errors. If 10 marks are allocated for accuracy but the candidate made 12 accuracy errors, he/she only loses 10 marks for accuracy and is still rewarded for the manipulation that was done correctly.

3. Manipulation errors are marked with a blue pen (X). All markings must be made on the printout in the same position as indicated on the marking guideline. This will also aid with the moderation process. The marker writes the corresponding manipulation number in blue and makes a tick (correct) or X (error) next to the number.

4. The marks achieved for each question is written on the printout of each question in the following table format:

	A	M	T
Write the total possible mark on this line –			
Write the candidate's mark achieved on this line -			

5. The candidate's total mark is written on the cover of the examination folder next to the corresponding question number.

6. If a candidate handed in a printout, but achieved 0 for the question, then 0 (zero) is written on the cover next to the corresponding question number.

7. If a candidate did not hand in a printout, a line is drawn through the block next to the corresponding question number.

8. If a candidate handed in a printout WITHOUT an EXAMINATION NUMBER and a WATERMARK, the question must be MARKED and reported as an IRREGULARITY.

9. ALL irregularities are marked and marks are transferred to the COVER PAGE. The word IRREGULARITY is written next to the percentage and an irregularity report is completed.

STOP WOMEN AND CHILD ABUSE

Most women are taught from a very early age to be submissive and respectful towards their male partners. So when someone does something that makes them uncomfortable, they often find it difficult to express their displeasure. This has led to a significant increase in the number of femicide and women abuse cases in the country. It is about time that women are taught to look out for the typical signs of an abusive man. Women MUST be concerned when their partners start showing any of the following behaviour:

1) He constantly wants to know your whereabouts and the company you keep.
2) He chooses the friends you must keep.
3) He constantly goes through your phone to check who you have been communicating with.
4) He constantly monitors your social media accounts such as Facebook, Twitter, Instagram and WhatsApp.
5) He often belittles you, calling you names in public and telling you how you are nothing without him.

9✓Rest of document fully justified

10✓Paragraph numbered

11✓Line and Letter spacing consistent

Uses of pre-exposure prophylaxis (pep) after exposure to sexually transmitted infections

PRE-EXPOSURE PROPHYLAXIS(PEP)	*EFFECTIVENESS OF PEP*
• It's a drug used by non-infected people to prevent the acquisition of HIV. • It is mostly used by victims of sexual assault. • Its regimen consists of Tenofovir + Emtricitabine plus Raltegravir. • In South Africa PrEP costs between R300 and R550 when obtained from the private sector.	1. Start treatment no later than 72 hours after rape. 2. Take medication as prescribed for 28 days. 3. Get tested and treated for pregnancy and other STI's. 4. Return to hospital at 6 weeks for follow-up tests and counselling.

7✓Table with 5 rows and 2 columns

8✓Column headings italics

9✓Light grey shading applied

10✓Bullets inserted in the left column (accept any bullets)

13✓Answer printed on TWO portrait pages

11✓Text in the right column numbered
