MARKING GUIDELINE

NATIONAL CERTIFICATE (VOCATIONAL)

LIFE ORIENTATION
(Second Paper)
NQF LEVEL 4

19 FEBRUARY 2019

This marking guideline consists of 23 pages.

Copyright reserved

IMPORTANT INSTRUCTIONS TO MARKERS

1. Markers are required to work out the question paper before the marking guideline is discussed.

2. **Accuracy errors** are marked with a **red /**. Accuracy errors refer to spelling errors or omission of text/numbers. The mark allocated for accuracy indicates the maximum marks that can be deducted for accuracy errors. For example, if FIVE marks are allocated for accuracy, a candidate will only lose FIVE marks, even if the number of accuracy errors exceeds five in that specific question.

3. **Manipulation errors** are marked with a **blue x** next to the manipulation number. Manipulation marks that are awarded for correct answers are indicated with a **blue** ✓ (next to the manipulation number). For example, if TEN marks are allocated for manipulation, then numbers 1–10 must be written next to the **blue x or** ✓ in the position indicated on the marking guideline.

4. All scripts with irregularities are marked and marks are transferred to the cover page. The IRREGULARITY is recorded on the cover page and mark sheet as per national examination regulations, and an irregularity report is completed.

5. The mark obtained for each question is written at the bottom right of each printout in the following table format:

   Write the total possible mark in this row.

   Write the candidate's errors made in this row.

   Write the candidate's mark achieved in this row.
   Circle the total mark.

6. The candidate's total mark per question is transferred to the cover of the examination folder next to the corresponding question number.

7. If a candidate handed in a printout but achieved ZERO for the question, then 0 (ZERO) is written on the cover next to the corresponding question number.

8. If a candidate did not hand in a printout, a line is drawn through the block next to the corresponding question number.

9. If a candidate handed in duplicate printouts, a line must be drawn across the duplicate printouts with the notation 'Duplicate' written across it.

10. All printouts must display the candidate's EXAMINATION NUMBER **and** a WATERMARK (with the computer station number) to ensure authenticity. Printouts without an EXAMINATION NUMBER and consistent WATERMARK must be marked and reported as an irregularity.
