MARKING GUIDELINE

NATIONAL CERTIFICATE (VOCATIONAL)

LIFE ORIENTATION
(First Paper)
NQF LEVEL 4

15 NOVEMBER 2019

This marking guideline consists of 13 pages.

Copyright reserved

INSTRUCTIONS AND INFORMATION

1. Markers are reminded that some aspects of Life Orientation can be interpreted broadly and therefore a broad range of answers may be given. The marking guideline is NOT intended to be prescriptive. However, incorrect answers should never be marked as correct.

2. Markers are requested to use their discretion when marking. Answers provided by students should be assessed within the context of their life experiences.

3. Content should be marked, NOT grammar.

4. For some questions a number of example answers are given. These serve as a guide to determine which type of response is required. Markers are requested to carefully work through ALL different answers to get a sense of which types of answers are acceptable and which are NOT acceptable.

5. Markers are requested to carefully check the mark allocation per question and mark strictly according to the mark allocation.
   Also please note:
   (2 × 1) means there should be TWO answers and ONE mark allocated per answer.
   (1 × 2) means TWO marks are allocated for ONE answer.

6. Where students are requested to write a paragraph or discuss, describe or explain, or write sentences, or give a reason, or substantiate, one-word answers cannot be accepted and should NOT be marked.

7. Thank you for marking carefully, rigorously and fairly. Maintaining a high standard helps to enhance the status of this important subject.
