7 March 2019 (X-Paper)
09:00–12:00

This question paper consists of 12 pages.

NCV

TIME: 3 HOURS
MARKS: 150

INSTRUCTIONS AND INFORMATION

1. Answer ALL the questions.
2. Read ALL the questions carefully.
3. Number the answers according to the numbering system used in this question paper.
4. Write neatly and legibly.

NCV

SECTION A

QUESTION 1

1.1 Various options are given as possible answers to the following questions. Choose the answer and write only the letter (A–D) next to the question number (1.1.1–1.1.15) in the ANSWER BOOK.

1.1.1 … is a video file format.

A .bmp
B .pdf
C .mp3
D .avi

1.1.2 Publishing and distribution happens during the … stage of a multimedia project.

A production
B research
C postproduction
D preproduction

1.1.3 Which position is the most suitable for titles on a television screen?

A Anywhere at the top
B Middle
C Bottom centre
D Bottom right

1.1.4 The … allows an animator to control the speed of a movement.

A motion editor
B timeline
C frame
D morph

1.1.5 … symbols are used for motionless images in animation.

A Button
B Movie
C Graphic
D Classic

1.1.6 … lines are used to capture shape, form and movement.

A Contour
B Dividing
C Decoration
D Gesture

Copyright reserved

SECTION B

QUESTION 2

2.1 Explain the function of the following code in action script:

```
import flash.events.MouseEvent;
var getFB:URLRequest=new
URLRequest(http://www.facebook.com);
FB_btn.addEventListener(MouseEvent.CLICK,FBClick);
```

(2)

2.2 Explain what would happen if the following code is omitted in the action script: `"stop();"?` (2)

2.3 Explain a *class* in action scripting. (3)

2.4 List THREE advantages of digital information over analogue information. (3)

2.5 Discuss the movie editing principle of *preserving screen direction*. (3)

2.6 Explain each of the following terms:

2.6.1 Alpha channel

2.6.2 Frame rate

2.6.3 Codec

(3 × 2) (6)

2.7 Explain the function of the razor tool in movie editing. (2)

2.8 The cut is the most common transition between movie scenes.

2.8.1 Explain the *cut*.

2.8.2 Explain why this type of transition is used?

(2 × 2) (4)

[25]

QUESTION 3

3.1 Which tool in the audio mixer should be used to change the audio level of ALL the sound tracks of a sound project? (1)

3.2 Name and explain THREE types of audio tracks. (3 × 2) (6)

3.3 Describe *e-book*. (2)

3.4 Give TWO of the most common e-book formats. (2)

3.5 Explain the purpose of guide lines in an Adobe InDesign document. (2)

3.6 Describe would happen when the *Snap to guides* option is enabled? (2)

3.7 What is the function of the *clipping path* tool in InDesign? (2)

3.8 Answer the following questions regarding *images* in electronic publishing:

3.8.1 Explain the difference between *embedded* and *linked* images in InDesign. (2 × 2) (4)

3.8.2 Give TWO advantages of linked images. (2)

3.8.3 Explain what will happen when a high-quality image that was added to an Adobe InDesign document is moved or deleted on the hard drive? (2)

[25]

NCV

QUESTION 4

4.1 Discuss *kerning* in typography and design. (3)

4.2 Answer the following questions regarding a master page in electronic publishing:

4.2.1 Describe the master page in InDesign. (2)

4.2.2 Describe the function of a master page. (2)

4.2.3 Give THREE examples of items that could be part of a master page. (3)

4.3 Explain the function of each of the following members of a multimedia production:

4.3.1 Script writer

4.3.2 Text editor

4.3.3 Content specialist

4.3.4 Production manager

(4 × 2) (8)

4.4 Explain *prototype*. (2)

4.5 Name TWO electronic devices that could be used for multimedia output. (2)

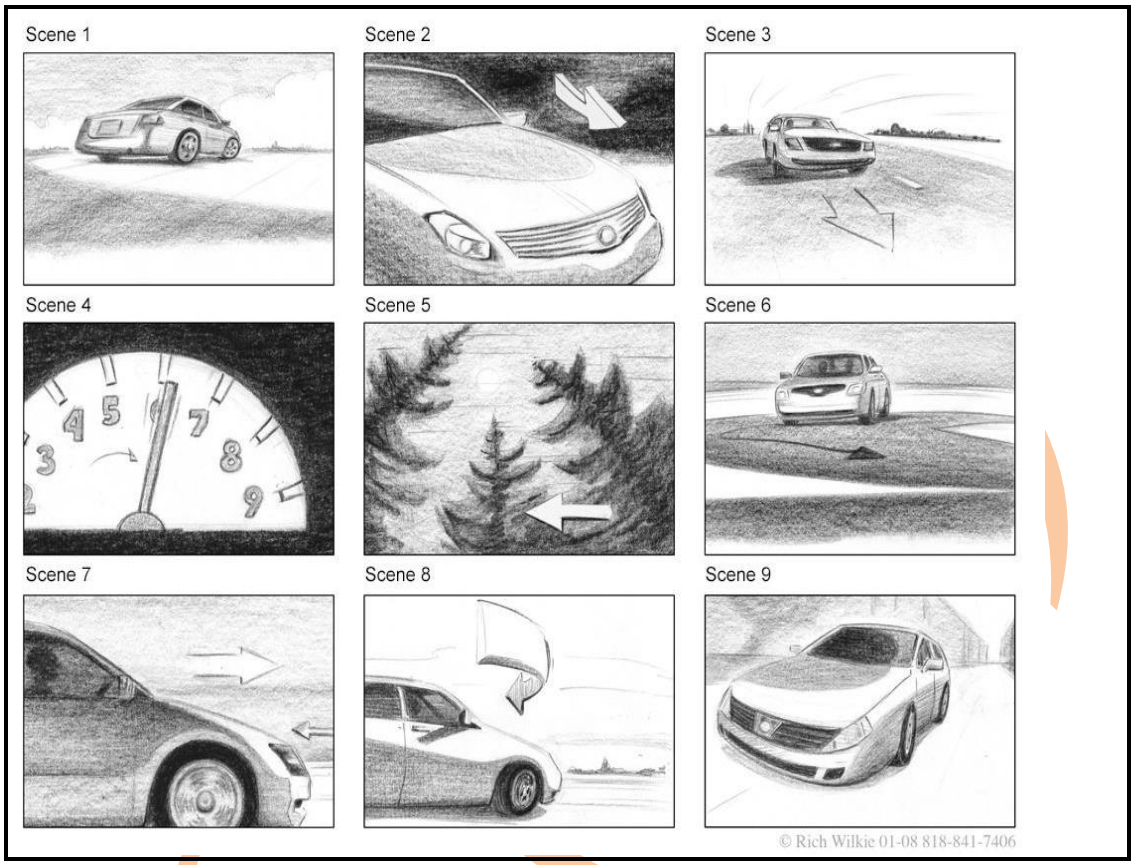

4.6 Name THREE digital storage devices for multimedia projects. (3)

[25]
