QUESTION 2

The Barbie doll was invented in 1959 by Ruth Handler, the co-founder of Mattel, whose own daughter was named Barbara. Barbie was introduced to the world at the American Toy Fair in New York City. Barbie's job was to serve as a teenage fashion doll. The Ken doll was named after Ruth's son and was introduced two years after Barbie in 1961.

Barbie's sales have dropped 16% over the first six months of 2015, a trend that implies the iconic doll will report a fourth consecutive annual drop in revenue. The roughly $2,3 billion dollar category has mostly been disrupted by the popularity of Disney's Frozen line, which focuses on two princess characters who are the key figures in the popular 2013 film.

Barbie had to deal with the entrance of new dolls in the market like Bratz, Monster high, Sophia the first, Cinderella, Doc Mcstuffins and all the Disney princess characters.

QUESTION 3

Temba and John had been job hunting for the past three years with no luck. They started thinking about launching fresh vegetables at local markets and decided to venture into the cultivation of mushrooms.
Mushrooms are known as the best alternative food for vegetarians. For Temba and John fund raising was a serious handicap to mass production. However, the first trial batch of mushrooms that they produced was bought by Khoroni Hotel in Limpopo.
The hotel manager told them that they usually depended on frozen mushrooms as there were no farms nearby to provide them with fresh mushrooms. When they got their first order from Khoroni, they had a transportation challenge as they had to depend on public transport.
They aim to sell mushrooms in a big way all over South Africa. Mushrooms, a perishable food, have great market potential. Other nearby lodges and hotels are still comfortable with using canned and frozen mushrooms, which is not a good thing for this newly established business.
They are sometimes faced with a climate challenge, especially when they don't get enough rain for their crops and have to depend on water from boreholes.

3.1	Compile a SWOT analysis for Temba and John.	(4 × 2)	(8)
3.2	Name any FIVE external environments that may harm Temba and John's mushroom business if they wish to expand into India.	(5 × 2)	(10)
3.3	Explain to Temba and John the difference between a *marketing plan* and a *marketing activity plan*.	(2 × 2)	(4)
3.4	Temba and John understand the importance of market research, but they need to know that it also has disadvantages. Name any FOUR disadvantages of market research.	(4 × 2)	(8)
			[30]

QUESTION 4

Retailers are always looking for new ways to improve sales. Many of these methods attract customers through sight, hearing, touch and taste. Sometimes new entrepreneurs become so desperate that they deceive their customers while advertising the product.

4.1	Name any TWO unethical marketing practices that retailers must avoid when advertising products.	(2 × 2)	(4)
4.2	State FIVE roles of market research in improving the sales of the retailers.	(5 × 2)	(10)
4.3	Explain FIVE factors that can have an influence on market research.	(5 × 2)	(10)
4.4	Explain the difference between *exploratory* and *conclusive research*.	(2 × 3)	(6)
