PRIMEDIA: OUR PEOPLE

A successful, sustainable business is ultimately dependent on the quality and strength of its people – which is why our people are the cornerstone of the PRIMEDIA business.

No technological breakthrough will ever replace the power of perspective and the insight that comes from hard-earned knowledge and experience, and being continuously aware of how we influence the world around us requires a special kind of person with a special kind of energy.

To this end we have several key initiatives that we offer to our PRIMEDIA family.
We run three major programmes: The PRIMEDIA Academy, the Leadership Development Programme, and an Executive course in association with GIBS.

Through these programmes, we are able to help our staff develop their skills through accredited training that guarantees both quality assurance and national recognition of their training.

In our more senior training programmes, we offer personalised opportunities to grow and develop their leadership talent – a core investment into our long-term sustainability through building a strong succession pool in our companies.

To ensure that our people are not just custodians of our business ethics, but are also ambassadors of PRIMEDIA's way of living, we actively promote ways for all employees to live our eight corporate Values every day.
