QUESTION 1

1.1	1.1.1	D
	1.1.2	D
	1.1.3	B
	1.1.4	A
	1.1.5	C
	1.1.6	C
	1.1.7	A
	1.1.8	A
	1.1.9	C
	1.1.10	C

(10 × 1) (10)

1.2	1.2.1	True
	1.2.2	True
	1.2.3	True
	1.2.4	False
	1.2.5	False
	1.2.6	True
	1.2.7	False
	1.2.8	False
	1.2.9	True
	1.2.10	False

(10 × 1) (10)

1.3	1.3.1	L
	1.3.2	J
	1.3.3	C
	1.3.4	B
	1.3.5	K
	1.3.6	D
	1.3.7	F
	1.3.8	A
	1.3.9	G
	1.3.10	E

(10 × 1) (10)
[30]

QUESTION 2

2.1 2.1.1 Personal hygiene refers to keeping a person's body clean✓ and to have a tidy appearance at all times according to good hygiene practices.✓

2.1.2 Food hygiene refers to the control of environmental conditions✓ during production, transport, storing and processing of food.✓

(2 × 2) (4)

2.2 Apron (1)

2.3
- Availability of nutrients/food
- Temperature
- Acidity/pH
- Availability of water/moisture
- Oxygen/air
- Time (Any 5 × 1) (5)

2.4
- Wet hands and arms thoroughly.
- Use water as hot as the hands can bear.
- Use antibacterial soap/liquid hand soap.
- Lather both hands and arms up to the elbows.
- Scrub the nails with the use of a nail brush.
- Rub hands with soap for at least 20 seconds.
- Rinse hands thoroughly under hot, running water.
- Dry hands using a paper towel. (Any 6 × 1) (6)

2.5
- Wear a clean uniform at all times.
- Wash hands between tasks.
- Take a bath at least twice a day.
- Brush teeth at least twice a day.
- Long hair should be tied back. (Any FIVE applicable suggestions) (5 × 1) (5)

2.6
- Use separate or colour-coded chopping boards for preparing different food types.
- Store food in a designated, separate area.
- Wash hands between tasks.
- Do not mix raw and cooked food.
- Do not freeze thawed food.
- Practice high standards of personal hygiene.
- Never use a marinade for cooked food that has already been used for raw meat, unless it has been boiled thoroughly. (Any applicable 5 × 1) (5)

2.7
- Eliminate nesting places.
- Eliminate access to food (keep kitchen, storage and receiving areas clean).
- Eliminate access to water (report water leaks/ keep floors dry).
- Maintain sound structures (fix holes and cracks where insects can enter).
- Place screens on windows and doors.
- Pesticides must be used only under the supervision of a licensed operator.

(Any preventative or eradication methods) (4 × 1) (4)

QUESTION 3

3.1 3.1.1

- Food waste should be disposed of separately and safely.
- Always wear protective gear.
- Food waste can be ground and washed down with water into the drainage system.
- Use separate, clearly marked bins.
- It should be handled very carefully.
- Keep lids of food waste containers tightly closed to prevent cross-contamination.
- Food waste containers must be washed and sanitised daily.

(Any 5 × 1) (5)

3.1.2

- Chemicals such as disinfectants, oven cleaners, degreasers, etc. must be sealed securely to prevent any spillage.
- Wear protective clothing when handling chemical waste.
- Read instructions carefully and do exactly what is required.
- Some chemicals may be poured into outside drains, depending on their chemical composition.
- Do not work with chemicals near heat or flames.
- Dispose of chemicals in clearly marked containers for collection by a company that specifically deals with the removal of chemical waste.
- Ensure that all collected chemical waste is placed into containers that will prevent the likelihood of exposure during handling. (Any 4 × 1) (4)

3.1.3

- Broken glass has sharp edges and can cut or injure the handler.
- Glass is also heavy therefore it should be disposed of in a separate bag.
- Wrap the broken glass in a number of layers of newspaper before putting it into the bag.
- Plastic bags are not suitable disposal items for broken glass as they can be torn by the sharp edges.
- Some glass can be recycled. (Any 4 × 1) (4)

3.2

- Double-breasted to protect chest against heat
- Long sleeved to protect arms
- Made of cotton to reduce fire risk
- Preferably white to show stains (Any 3 × 1) (3)

Copyright reserved

3.3 3.3.1
- Guests/workers would become ill
- Guests could sue for damages
- Business could close down
- Would lead to loss of jobs
- Down time
- Reputation would be ruined (Any relevant 3 × 1) (3)

3.3.2
- Use separate colour-coded chopping boards
- Have designated area to store food
- Never reheat reheated food
- Store food at the right temperatures
- Food should be cooked to the right temperature
- Do not leave food unattended
- Heat food to the correct temperature in order to kill microorganisms
- Report illness as soon as possible
- Clean as you go (Any relevant 5 × 1) (5)

3.4
- Food should be stored on shelves or in bins, away from the walls and off the floor.
- Spillage should be cleaned up immediately.
- All goods should be inspected for leaks, damage, contamination, rust and expiry dates before being stored.
- Clean food stores as often as necessary to ensure that food is kept in the cleanest possible environment.
- Fruit and vegetables should be stored in dry, cool, well-ventilated areas, preferably separate from other food
- Fruit should be examined regularly as mould spreads very quickly. (6)

[30]

QUESTION 4

4.1
- Protective gear: Gloves
- Bin liners
- Vacuum cleaner
- Broom
- Squeegee
- Sponges/Cloths
- Mop
- Dusters
- Bucket
- Detergent, soaps
- Sanitisers
- Disinfectant (Any applicable 5 × 1) (5)

4.2 4.2.1
- Sets standards of performance
- Defines expectations of the group/team (2)

4.2.2
- Participate in team activities
- Share information
- Contribute to work effort
- Contribute to work products
- Share in rewards and failures (5)

4.3
- Contribute ideas and solutions
- Recognise and respect differences of others
- Value the ideas and contributions of others
- Listen and share information
- Ask questions and get clarification
- Participate fully and keep to commitments
- Be flexible and respect the partnership created by a team
- Have fun and care about the team and outcomes. (Any 6 × 1) (6)

- Contact the refuse removal company to find out what the problem was and when they would come for waste collection.
- If you have a bakkie or truck, arrange to take the waste to a local rubbish dumpsite.
- Prepare an area in the garden to dispose of the waste that can be used as compost.
- Food waste can be given to farmers. (Any relevant 5 × 1) (5)

4.5
- Glass
- Paper
- Tins/cans
- Egg crates
- Plastic containers
- Leftover food (Any 4 × 1) (4)

4.6
- Tin/cans
- Paper
- Glass bottles
- Crockery
- Cloth
- String
- Aluminium foil
- Large bones (Any 3 × 1) (3)

[30]

QUESTION 5

5.1
- Information services –travel agents and travel organisers
- Tour operators
- Transport
- Gaming and leisure
- Attractions – tour operators and tour guides
- Recreation (Any 4 × 1) (4)

5.2
- Crime, violence, armed robberies, hijacking – safety of tourists while visiting
- Poor hygiene – unsafe food
- Problems with neighbouring countries
- Xenophobia
- Political unrest
- Global economy – recession
- Poor service (Any 3 × 1) (3)

5.3 5.3.1 Each country has its own different and has unique places✓ and cultures that can only be found there.✓ (2)

5.3.2
- Cradle of humankind, fossil site
- Mapungubwe Cultural landscape
- Robben Island
- Cape Floral region
- Greater St Lucia wetland park
- Vredefort Dome
- Ukhahlamba/Drakensberg park (Any 4 × 1) (4)

5.4
- Do not scrape wooden chopping boards as this may splinter the wood.
- Wash the whole board in hot detergent water.
- Clean with a brush, especially the cutting area that was used.
- Do not use a pot scourer and metal/steel wool as it may damage the surface area.
- Rinse in very hot water and air-dry.
- Do not soak wooden boards.
- Rinse, sanitise and air-dry. (6)

5.5
- Chips or cracks in porcelain or ceramic utensils
- Splintered wood in wooded utensils
- Utensils where the original surface has been scratched or damaged
- Glass utensils that have cracks or chips
- Loose handles on pots and pans as this may cause serious injury if used for cooking
- Rust contamination
- Pitting in aluminium utensils which may hide bacteria (Any 3 × 1) (3)

Copyright reserved

5.6
- Flies, pests and rodents will not be attracted.
- Safety for staff and guests will be improved.
- Neat and clean appearance will lead to customer satisfaction.
- Risk of fire will be reduced.
- No bad smell will occur. (Any 4 × 1) (4)

5.7
- Carbon paper
- Foam polystyrene
- Window panes
- Lever arc files
- Paper towels (Any applicable 4 × 1) (4)
