SECTION A

QUESTION 1

1.1 Various options are provided as possible answers to the following questions. Choose the answer and write only the letter (A–D) next to the question number (1.1.1–1.1.10) in the ANSWER BOOK.

1.1.1 … occurs via air, soil and water and it could affect foods such as vegetables, meat and fish.

A Cross contamination
B Direct contamination
C Indirect contamination
D Odour contamination

1.1.2 You have to use a … colour-coded chopping board when working with fish.

A red
B yellow
C green
D blue

1.1.3 Mayonnaise is a cold … sauce.

A clarified
B roux
C emulsion
D starch-thickened

1.1.4 … is a rolled-in dough, prepared by using an intricate rolling and folding process in which butter are spread and then pressed between the different layers of pastry.

A Short-crust pastry
B Puff pastry
C Choux pastry
D Sweet short-crust pastry

1.1.5 … can be used as a thickening agent and also improve the flavour of soups.

A Browned bones
B Mirepoix
C Arrow root
D A mixture of egg and cream

1.1.6 Use a … to select and hold bread or bread rolls.

A tongs
B palette knife
C fork
D zester

1.1.7 Kingklip, sole, hake and tuna are examples of …

A cold-water fish.
B salt-water fish.
C fresh-water fish.
D shellfish.

1.1.8 Sifting icing sugar or cocoa on a cake in order to decorate it:

A Dusting
B Coating
C Sprinkling
D Glazing

1.1.9 This pastry preparation method requires you to use your hands to work the pastry into a properly blended mixture:

A Mixing
B Folding
C Kneading
D Rubbing in

1.1.10 … must not be used to prepare or store dough products because they harbour bacteria and dirt.

A Stainless steel bowls
B Ramekins
C Air-tight containers
D Cracked and chipped bowls

1.2 Choose the action in COLUMN B that you would take in reaction to the unexpected situation described in COLUMN A. Write only the letter (A–H) next to the question number (1.2.1–1.2.5) in the ANSWER BOOK.

COLUMN A		COLUMN B	
1.2.1	You burn yourself while toasting bruschetta in the oven	A	adjust the temperature of the oven, discard it and prepare another batch
1.2.2	The cream cheese for the smoked salmon canapés has reached its expiry date	B	disinfect and cover it completely before completing your task
1.2.3	The mini quiches has a burnt crust but they are still raw on the inside	C	the taste and texture will not be affected, therefore you can serve it to a customer
1.2.4	You cut yourself while chopping parsley for garnish	D	put it back into the oven
1.2.5	You want to slice ham, but the meat slicer is faulty	E	apply ice/cold water to it
		F	check the temperature of the refrigerator
		G	return it to the storeroom and ask for a replacement
		H	use a chef's knife to complete your task

(5 × 1) (5)

1.3 Indicate whether the following statements are TRUE or FALSE. Choose the answer and write only 'True' or 'False' next to the question number (1.3.1–1.3.10) in the ANSWER BOOK.

1.3.1 Haddock is smoked hake.

1.3.2 After taking baked dough products out of the oven, they must be left in their baking containers to cool down.

1.3.3 Sponge cake mixtures must be baked immediately after mixing.

1.3.4 Vol-au-vents are filled before baking them in the oven.

1.3.5 Freezer burn on fish happens when you cook it at the wrong temperature.

1.3.6 A brown stock can be made using chicken.

1.3.7 Grilling is a common cooking method for dough products.

1.3.8 Eggs used in baking must preferably be at room temperature to make it easier to whisk them.

1.3.9 Glace icing is made using icing sugar and water.

1.3.10 Always check that the ingredients are fresh before starting to bake a cake.

(10 × 1) (10)

1.4 Give ONE word/term for each of the following descriptions. Write only the word/term next to the question number (1.4.1–1.4.10) in the ANSWER BOOK.

1.4.1 Pieces of fish that have been cut from each side of the backbone of the fish

1.4.2 An uncooked sauce made by whisking together egg yolk, vinegar, mustard and oil

1.4.3 A preparation method whereby butter is heated before it is added to sifted flour

1.4.4 The most common type of flour used to prepare dough

1.4.5 Adds flavour, colour and richness to pastry

1.4.6 Can be used as a base for both sandwiches and canapés

1.4.7 These products must be thrown away and can cost the company money

1.4.8 Can be cut into wedges and used to garnish fish dishes

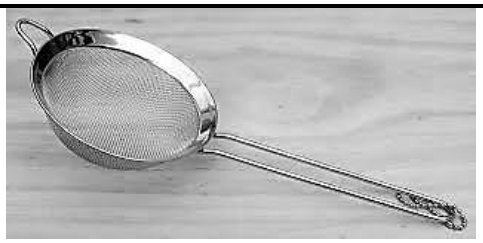

1.4.9 An unstrained soup made with a stock base and diced vegetables

1.4.10 A type of contamination that can occur if hair, plasters or parts of machinery are found in raw dough

SECTION B

QUESTION 2

2.1 Explain the key steps to follow when cleaning food preparation areas. (5)

2.2 What are the FOUR main headings on a cleaning schedule? (4)

2.3 Look at FIGURE 1 below and answer the questions.

FIGURE 1

2.3.1 What type of biscuit is being made in the picture above? (1)

2.3.2 Give a definition of this particular type of biscuit. (2)

2.3.3 Recommend an appropriate way of decorating this particular biscuit to make it look more attractive. (2)

2.3.4 The biscuits bake for 10 minutes, but they are still not golden brown.

What could have caused this? (2)

2.3.5 How will you store these biscuits to ensure they do not crumble and remain fresh for longer? (4)

2.3.6 You accidentally drop a hot tray of biscuits on the floor.

What is the correct way of responding to this situation? (4)

2.4 List SEVEN examples of bases for canapés. (7)

2.5 Recommend guidelines for deciding on the toppings you will use when preparing canapés. (9)

QUESTION 3

3.1 Look at FIGURE 2 below and answer the questions.

FIGURE 2

3.1.1 Name the pastry used in FIGURE 2. (1)

3.1.2 Rolling is a common preparation method used when preparing the above pastry.

Explain how you would do rolling correctly. (6)

3.1.3 After rolling, the pastry must be allowed to rest in the refrigerator.

Discuss the reasons for doing this. (5)

3.1.4 The recipe says that you must blind bake the pastry.

What does *blind baking* mean? (7)

3.1.5 What effect would a burnt pastry product have on customers? (4)

3.2 How would you measure flour for a muffin recipe? (2)

[25]

QUESTION 4

4.1 Discuss the main contamination threats when preparing stock. (10)

4.2 List the main ingredients used when preparing a brown stock. (6)

4.3 Develop a set of guidelines stipulating the characteristics of a good soup. (8)

4.4 There is a power outage and you are unable to cook.

How would you handle this situation? (4)

4.5 How must soup that is sold as a take-away be served? (3)

4.6 Suggest FOUR ways in which mayonnaise can be used in the preparation and presentation of canapés and sandwiches. (4)

QUESTION 5

5.1 Look at FIGURE 3 below and answer the questions.

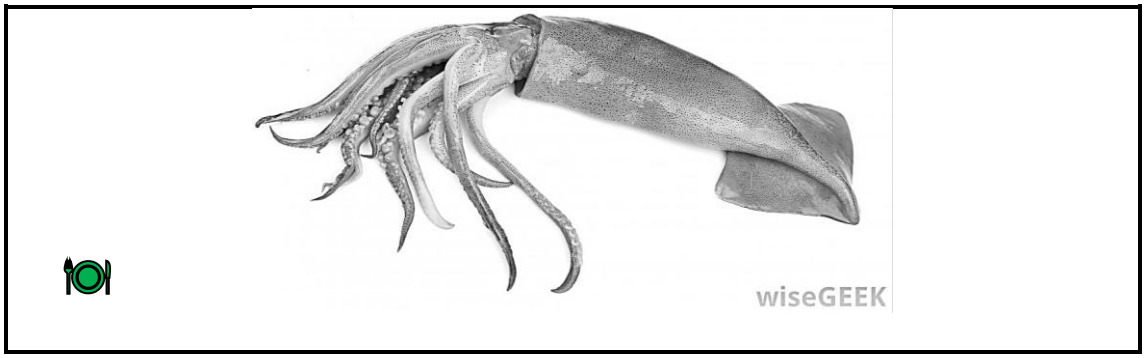

FIGURE 3

5.1.1 Classify the sea creature in FIGURE 3. (1)

5.1.2 List THREE common cuts in which it can be purchased. (3)

5.1.3 Discuss TWO preparation methods used when handling it. (4)

5.2 Most recipes require that fish be coated before cooking.

Compare the TWO types of coatings in the table below. Copy and complete the table in your ANSWER BOOK.

	Breadcrumb coating	**Batter coating**
Main ingredients	(3)	(4)
Suitable for which cooking methods	(2)	(1)

(10)

5.3 You notice that the fish you are coating has a bad smell.

How would you handle this situation? (2)

5.4 Read the recipe below and answer the questions.

Scones (serves 8)

Ingredients
230 g self-rising flour
60 g butter
8 g baking powder
pinch of salt
150 ml milk
50 g caster sugar
1 extra-large egg

Method
1. Sift the flour, baking powder, sugar and salt into a large metal bowl and mix gently with a spatula.
2. Rub in butter until the mixture resembles fine breadcrumbs and make a well in the centre of the bowl.
3. Whisk together the egg and milk in a separate bowl and pour 2/3 of this batter into the middle of the crumb mixture.
4. Combine the ingredients by cutting through the mixture with a spatula. Once combined, and if the dough is not soft enough, add the remaining egg mixture, a little at a time, until the dough is soft but not sticky. Place mixture on a lightly floured surface and use your hands to mix gently until a soft and firm dough is formed.
5. Roll out the mixture to a 3-cm thickness and cut out scones using a scone cutter, dipping the cutter in additional flour after each scone to prevent sticking.
6. Place scones on a baking tray and bake at 170 °C for 17 minutes.

5.4.1 What type of dough is used to prepare scones? (1)

5.4.2 Identify the preparation methods used in the recipe above. (4)

5.4.3 How would you prepare the baking tray before placing the scones on it? (2)

5.4.4 Step 6, an important preparation method, is missing.

Do you agree? Motivate your answer. (3)

5.4.5 How will you know that the scones are cooked and ready to be taken out of the oven? (4)

5.4.6 Write down THREE traditional toppings that can be used when presenting scones. (3)

5.4.7 How do you store scones that have just been taken out of the oven? (3)
