NOTE: The test must be marked carefully as it impacts on the results. Mark accuracy only.

1. The mark schedule attached must be used to allocate marks.

2. When the same word is repeatedly keyed in incorrectly, it is penalised the first time only (once) and encircled thereafter per question.

3. Omission of words: Count the first FIVE strokes (including spaces) and thereafter every 10 strokes constitute ONE error each.

4. Should a whole line or paragraph be left out and placed at the bottom of the answer only ONE accuracy error is deducted and it is not penalised as an omission of words.

5. Should a whole line or paragraph be repeated only ONE accuracy error is deducted for the whole line or paragraph.

6. If 30 wpm is not reached count back as indicated in the marking guideline.

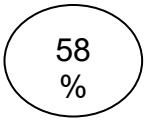

7. The highest mark obtained is indicated. The highest speed obtained (12/30 or more) is indicated.

8. Indicate the speed obtained with a P/S (pass speed) 30 wpm/35 wpm or F/S (fail speed) on the COVER PAGE next to the mark for the speed and indicate the speed obtained next to the percentage obtained.

9. Indicate at the end of the speed test:

Pass/Fail speed	**P/S**
No. of errors	**3**
Mark achieved	**16/20**
WPM achieved	**30**

10. The speed reached is endorsed on the COVER of the EXAMINATION FOLDER next to the percentage obtained (within the circle), for example

30 wpm

11. NO marks deducted for:

- Incorrect casing (capital/lower case)
- Incorrect letter spacing
- Incorrect hyphenation
- Incorrect line spacing
- Incorrect paragraphing
- Incorrect justification

Education in support of the electoral process has become known as voter education where a voter is the primary target. There are a number of other areas of education required if an election is to be successful, but these may variously be conducted by political parties and election administration officials. Voter education, on the other hand, is considered to be a separate and discreet function. It is usually identified as a function of the electoral authority and is occasionally subcontracted by them to private companies and civil society organisations. It is also fostered by public interest organisations independent of any mandate from the election authority.

At its core, voter education is an enterprise designed to ensure that voters are ready, willing, and able to participate in electoral politics. It has been assumed that this entails election literacy and confidence that the electoral process is appropriate and effective in selecting governments and promoting policies that will benefit the individual voter.

As indicated elsewhere in this topic area, voter education is essential to ensuring that voters can effectively exercise their voting rights and express their political will through the electoral process. If voters are not prepared or motivated to participate in the electoral process, then questions may arise about the legitimacy, representativeness, and responsiveness of elected leaders and institutions. At the same time, voter education is a much focused undertaking. It is targeted at eligible voters and addresses specific electoral events as well as the general electoral process. While voter education is a necessary component of the democratic electoral process, it is not sufficient for democracy.

What is the Electoral Code of Conduct?

The Code is a set of rules. The parties and candidates must:

- speak out against political violence and threats against other parties, the ***ELECTORAL COMMISSION***, members of the public and the media;
- let the authorities know about planned marches or rallies;
- communicate with other political parties about planned political events;
- recognise the authority of the ***ELECTORAL COMMISSION***;
- work with the ***ELECTORAL COMMISSION*** structures and allow them to perform their duties;
- work with the police in their investigation of election crime and violence; and
- accept the results of the election or challenge the result in court.

How does the Code of Conduct work?

- The Electoral Code of Conduct must be agreed to by:
  - every registered party before the party takes part in an election; and
  - every candidate before he/she is placed on the list of candidates
- Parties and candidates must stick to the code and must:
  - let the public know about the Code;
  - promote the purpose of the Code; and support efforts to educate voters
- Parties and candidates must also inform the public that all people(including women, persons with disabilities, and different language and cultural groups) have the right:
  - to be free to express their political beliefs and to be part of any political party; and
  - to join in any political campaigns, marches or public meetings

What happens when you break the Code of Conduct?

Any person who breaks the Code is guilty of a crime and can be fined or sent to prison for up to 10 years.

Political parties that break the Code can:

- be fined;
- be stopped from working in an area; or
- have their votes in an area cancelled

Update your antivirus software

Antivirus software must be updated regularly to stay effective against new viruses. Most antivirus software is designed to update automatically, but you can also update your software manually.

Windows doesn't come with antivirus software, but it can often detect and monitor antivirus software that was installed by you or your computer manufacturer. The status of your antivirus software is typically displayed in Action Center.

1. Click to open Action Center.

7.5 Help and support✓
Correct information✓
Print screen✓

2. Click the arrow button next to Security to expand the section.

   If Windows can detect your antivirus software, it will be listed under Virus protection.

3. Click Update now.

   Note

   - The Update now option only appears if Windows detects that your antivirus software is out of date. Not all antivirus software reports its status to Windows.

If your antivirus software isn't displayed in Action Center, go to the downloads section of your antivirus software provider's website. Find the update for your version of the software and your operating system, and then install it. For more information, check the Help for your antivirus software.

Most antivirus software updates are free, but some providers charge a small fee for the updates. If you're using an older version of the software, you might also have to pay to upgrade to a more recent version to continue to receive the updates
