TIME: 3 HOURS
MARKS: 300

INSTRUCTIONS AND INFORMATION

CANDIDATES HAVE 15 MINUTES TO READ THESE INSTRUCTIONS BEFORE STARTING THE ACTUAL EXAMINATION.

1. Answer ALL the questions.

2. Read ALL the questions carefully.

3. Number the answers according to the numbering system used in this question paper.

4. ALL questions must be done on the computer with the aid of the Microsoft Office Suite. All PRINTOUTS MUST be numbered correctly and the EXAMINATION NUMBER and the QUESTION NUMBER must be printed as instructed for each PRINTOUT. The PRINTOUTS must be placed in the correct sequence in the folder provided.

5. PRINTOUTS with handwritten EXAMINATION NUMBERS will NOT be accepted or marked, unless signed by the invigilator to endorse the fact that it is the candidate's own work.

6. The following fonts will be accepted: Arial, Courier New, or Times New Roman, size 12. However, ONE type of font must be used throughout the answering of the entire question paper, except where instructed to change the font.

7. Candidates must retrieve and use the various files loaded on their memory stick/flash disk/network drive (whichever one is used) to effect various commands as per instruction for the applicable questions.

8. The time allocated for the question paper is THREE hours. An additional THIRTY minutes may be allowed to a candidate for the printing of answers where a central printer is used in a venue. Printing may also be done during the THREE hours allocated to the processing of answers to prevent a queue of printing at the end of the examination.

9. During the additional printing time, candidates may only affect printing commands. NO further keying in or editing may be done. It is recommended that additional invigilators who are knowledgeable about computers invigilate during the additional 30 minutes printing time to provide extra assistance and control.

Copyright reserved

10. In the event of a power failure or a computer or printer breakdown, the invigilator must make the necessary arrangements for the candidate to continue, and the actual time lost must be given to the candidate once he/she resumes working.

11. Each answer should be printed on a separate sheet of A4 paper and on ONE side of the paper only. Invigilators will instruct candidates and control PRINTOUTS, which must be placed in the EXAMINATION FOLDERS immediately after printing.

12. PRINTOUTS to be marked must be arranged in the same order as that of the questions in the examination paper (only ONE printout per question or subsection of a question may be handed in). At the end of the examination all PRINTOUTS must be placed in the candidate's EXAMINATION FOLDER and must be handed to the invigilator. This includes all PRINTOUTS on which errors occur and which should NOT be marked. No PRINTOUTS whatsoever may be removed from the examination room or put into waste-paper bins.

13. QUESTIONS 2–7 must be completed in the files provided in the STUDENT FILES FOLDER. QUESTIONS 2–7 must be saved after completing the questions. Print and insert the PRINTOUTS into the cover provided for the PRINTOUTS.

14. All work on the computer should be saved at regular intervals to prevent loss of work in the event of a power failure. No additional time may be allowed for such lost work. It is the candidates' responsibility to protect their answers through regular saving in order to prevent the loss of work.

15. At the end of the examination session, each candidate must hand in the PRINTOUTS as well as the memory sticks/flash disk (or other storage device which may be used) with the saved answers (properly marked with the candidate's EXAMINATION NUMBER on the cover).

    If a network is used, the network manager must make a backup copy of all the candidates' work under supervision of the invigilator. (These memory sticks/flash disks and/or backup copies, for example CDs, must be handed to the examination section of that college for safekeeping for ONE year in case enquiries should be made by the examiner/moderator/superintendents of education and/or Umalusi.)

16. The hard drive of the computer (C:drive) may not be used for the saving of documents in the event of other groups using the same venue during more than one sitting. If the same venue is being used for different groups, then the hard drive of the computers must be checked and cleared before the next group commences the examination session.

17. No candidate may print his/her work for another candidate, or make his/her memory stick/flash disk available to another or access other candidates' work on the network. Any attempt to access information from or transfer information to another candidate in whatever manner is a contravention of the examination rules and regulations, and will be viewed in an extremely serious light.

18. Candidates are reminded to save work regularly to prevent the loss of work.

Copyright reserved

19. Candidates are encouraged to spell check each completed question before printing. Marks are deducted for work that is not typed accurately.

20. **HOW TO MAKE A PRINT SCREEN OF A DIALOG BOX**

Follow these instructions to copy the necessary dialog box when answering a question which requires the use of the print-screen function:

- Press the Print screen button found on the top row of the keyboard [on the right hand side of the F12 function key]
- Minimise that screen, open the answer sheet required for the answers
- Place the cursor at the position where the answer must be inserted
- Press CTRL+V on the keyboard, or click the Paste icon on the standard toolbar
- The print screen image/picture will appear in the position where you placed your cursor

21. **TIMED ACCURACY TEST (QUESTION 1)**

- Candidates must be allowed to read through the accuracy test at least THREE minutes before the commencement of the examination.

- ALL candidates will perform the timed accuracy test (QUESTION1) together at the instruction of the invigilator.

- The timed accuracy test must be done at the beginning of the examination.

- If a student arrives late (i.e. during or after the first 10 minutes) the student will not be able to do QUESTION 1 and must be informed that he/she must start at QUESTION 2 onwards. No PRINTOUT for QUESTION 1 will be accepted for this student.

- On the expiration of the 10 minutes allowed for the timed accuracy test, the invigilator will collect all tests and will initial after the last keyed-in word on each page. The invigilator will retain the tests until the examination has been completed and will, in the presence of the candidates, place these tests into each candidate's folder with examination answers.

The following background information is for READING purposes only and must NOT be keyed in as part of the examination.

First-time voters need more effective education

The importance of voter and civic education during an election year cannot be overstated. Such initiatives assist voters in understanding their rights and responsibilities better, as well as giving them sufficient knowledge about the country's election process and political system. Voters can then understand the value of democracy, the impact it has on the system of government, and how it can be used to address the economic, social and political challenges facing the nation.

(Adapted from: *www.ngopulse.org*)

You work in an NGO office as an administrative clerk on contract basis to help with an awareness campaign to educate voters.

Education in support of the electoral process has become known as voter education where a voter is the primary target. There are a number of other areas of education required if an election is to be successful, but these may variously be conducted by political parties and election administration officials. Voter education, on the other hand, is considered to be a separate and discreet function. It is usually identified as a function of the electoral authority and is occasionally subcontracted by them to private companies and civil society organisations. It is also fostered by public interest organisations independent of any mandate from the election authority.

At its core, voter education is an enterprise designed to ensure that voters are ready, willing, and able to participate in electoral politics. It has been assumed that this entails election literacy and confidence that the electoral process is appropriate and effective in selecting governments and promoting policies that will benefit the individual voter.

As indicated elsewhere in this topic area, voter education is essential to ensuring that voters can effectively exercise their voting rights and express their political will through the electoral process. If voters are not prepared or motivated to participate in the electoral process, then questions may arise about the legitimacy, representativeness, and responsiveness of elected leaders and institutions. At the same time, voter education is a much focused undertaking. It is targeted at eligible voters and addresses specific electoral events as well as the general electoral process. While voter education is a necessary component of the democratic electoral process, it is not sufficient for democracy. 30 wpm

Voter education needs to be supplemented by on-going civic education efforts in order to achieve the democratic participation and culture that flows from and is, in fact, the 35 wpm

[20]

QUESTION 2: PRESENTATIONS

2.1 Open MS PowerPoint and create a new presentation by applying an appropriate design or theme ensuring that all information is visible. (2)

2.2 Format Slide 1 as a Title slide and insert the text as shown below: (1)

2.2.1 Key in the text in the Title placeholder in upper case, 44 pt, bold and shadow effect: (6)

VOTERS' EDUCATION PROGRAM

2.2.2 Key in the subheading below in the next placeholder using a black font and italics.

www.etu.org.za (3)

2.3 Insert a Two-Content slide as Slide 2 and edit it as follows: (1)

2.3.1 Insert the heading “WHAT IS ELECTION?” in the Title placeholder. (3)

2.3.2 Insert the following text in the placeholder on the left:

Election is the means by which the people choose their officials for definite and fixed periods. (2)

2.3.3 Copy the image named VOTE from the STUDENT FILES FOLDER and insert it in the placeholder on the right. Adjust the image to fit the placeholder and apply any picture style. (3)

2.4 Import Slide 1 from the presentation named ELECTION in the STUDENT FILES FOLDER to become Slide 3 and edit it as follows: (2)

2.4.1 Use the Spell Check function and correct ALL spelling errors. (2)

2.4.2 Create the table below as is in the placeholder on the right using font size 11 pt. (9)

MUNICIPALITIES		
METROPOLITAN	*LOCAL*	*DISTRICT*
✓ Exits in six biggest cities in SA ✓ 500 000 voters ✓ Broken into wards	✓ Six cities divided into local municipalities ✓ Total of 231 and broken into wards	✓ Made up of number of local municipalities ✓ Between 4-6 ✓ 46 in SA

Copyright reserved

2.5 Insert a new Title and Content slide as Slide 4 and edit it as follows: (1)

2.5.1 Insert the heading REQUIREMENTS FOR REGISTRATION in the Title placeholder in upper case and italics. (3)

2.5.2 Type the following text in the body placeholder:

One must:
- Be a South African
- Be 18 years old
- Have an ID (3)

2.6 Insert a new Content slide as Slide 5 and edit it as follows: (1)

2.6.1 Insert the heading QUALITIES TO LOOK FOR in upper case in the Title placeholder. (2)

2.6.2 Insert the Vertical Chevron List SmartArt Graphic and apply any SmartArt style. (2)

2.6.3 Insert text into the shape, as indicated below. (4)

R	• Righteous
I	• Integrity
G	• Governance
H	• Heart
T	• Talent

2.7 Import Slide 2 from the ELECTION presentation and insert it as Slide 6. Add the following text in bold, centred and font size 66 pt: (3)

Your Vote…
Our Future

2.8 Change the shape to Striped Right Arrow and adjust to fit text. (2)

2.9 Apply slide numbers to all the slides in the presentation. (2)

2.10 Insert a header in the presentation, as shows below. (1)

EXAMINATION NUMBER QUESTION 2

2.11 Save the presentation and print it as handouts with THREE slides per page. (2)

[60]

QUESTION 3: MS WORD – MAILING FUNCTION

ALL files must be retrieved from and saved in the STUDENT FILES FOLDER. Use the mail merge function to carry out the following tasks:

QUESTION 3A

3.1 Create a data source file using the following information and save it as QUESTION 3A. (14)

AREA	PROVINCE	TIME	NAME	NUMBER
Urban Formal	Western Cape	10:30–14:00	Andiswa Stokwe	072 654 7888
Rural Formal	Northern Cape	07:00–10:30	Mary Schoeman	083 555 9595
Urban Informal	Free State	14:30–17:30	Andile Ngoni	084 454 6687

3.2 If using MS Access to create the data source, save the file as EXAMINATION NUMBER and QUESTION 3A

If using MS Word, insert a header with your EXAMINATION NUMBER and QUESTION 3A. (1)

3.3 Save and print the data source file. (1)

QUESTION 3B

3.4 Retrieve the document saved as V-QUEST from the STUDENT FILES FOLDER and edit it as follows: (1)

3.4.1 Insert your EXAMINATION NUMBER and QUESTION NUMBER as a header left as follows:

EXAMINATION NUMBER
QUESTION 3B (1)

3.4.2 Format the font and size of the entire document to Arial 12 pt. (1)

3.4.3 Format the heading to font size 24 pt and Outline Text Effect in black. (3)

3.4.4 Insert the table below using Arial 11 pt, TWO lines below the horizontal line. (13)

	Very useful	Somewhat useful	Not useful	(Not Applicable)
Newspaper	1	2	3	9
Civil society organisation	1	2	3	9
IEC website	1	2	3	9
Formal and informal workshops	1	2	3	9
Pamphlets	1	2	3	9
TV	1	2	3	9
Radio	1	2	3	9
Voter-awareness booklets	1	2	3	9

Copyright reserved

3.4.5 Format the design of the table with a Table Style of your choice. (1)

3.4.6 Adjust column 1 to 5.66 cm/2.22” and columns 2–4 to 2.73 cm/1.07”. (2)

3.4.7 Format the column headings to bold italic. (2)

3.4.8 Insert a footer in the centre using bold and italics, as indicated below.

Usefulness in providing you with information and voter education (5)

3.4.9 Link this document to the data source file QUESTION 3A by replacing the existing text with the merge fields created.
<<AREA>>
<<PROVINCE>>
<<TIME>>
<<NAME>>
<<NUMBER>> (6)

3.4.10 Format the merge fields to bold, italics and font size 16 pt. (3)

3.4.11 Print the primary document and save it as QUESTION 3B. (1)

QUESTION 3C

3.5 Merge the primary document with the data source to create a final document. (2)

3.6 Change the question number in the header to QUESTION 3C. (1)

3.7 Print only pages 1 and 3 of the final merged document. (2)
[60]

Copyright reserved

QUESTION 4: MS WORD – PROCESSING FUNCTIONS

4.1 Retrieve the document saved as ELECTIONS from the STUDENT FILES FOLDER. (1)

4.2 Insert your EXAMINATION NUMBER and QUESTION NUMBER as a header in the right margin as follows:

EXAMINATION NUMBER
QUESTION 4 (1)

4.3 Edit the document as indicated in the instructions below.

4.3.1 Change the font of the entire document to Arial Narrow. (1)

4.3.2 Change the before and after paragraph spacing of the document to 0 pt. (1)

4.3.3 Activate the automatic hyphenation function to create an equal right margin in the entire document. (1)

4.3.4 Insert the main heading in font size 26 pt, upper case, bold and centred. (4)

National and Provincial Elections

4.3.5 Leave TWO lines after the main heading. (1)

4.3.6 Apply the Subtitle style, bold and font size 14 pt to the following headings:

What is the Electoral Commission?
What does the Electoral Commission do?
What are the functions of the IEC?
What is the structure of the Commission? (2)

4.3.7 Change the line spacing of paragraph 1 to 1.5 spacing and centre horizontally. (2)

4.3.8 Right align paragraph 2, including the heading. (1)

4.3.9 Apply the ☒ bullet to the list in paragraph 3 and format it as indicated below:

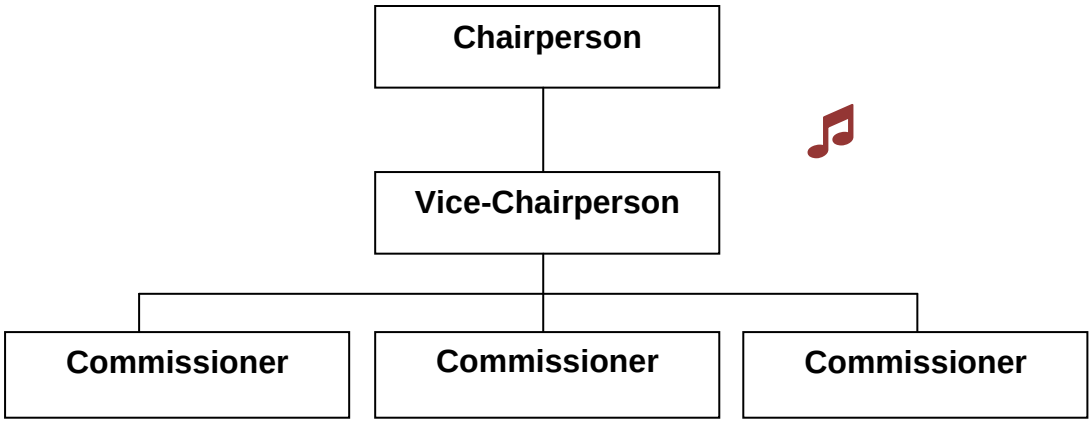

Font size: 14 pt
Align at: 0 cm
Text indent: 1 cm (2)

Copyright reserved

4.3.10 Change the margins of page 1, as shown below:

Top: 1 cm/0.39”
Bottom: 1.5 cm/0.59” (2)

4.3.11 Use SmartArt graphic to create the hierarchy, as indicated below. TWO lines after paragraph 4, inserting text in bold. (6)

4.3.12 Change the size of the SmartArt graphic to 6.87 cm/2.70” in height and 13.45 cm/5.29” in width and apply a 3 pt border. (2)

4.3.13 Apply the Polished SmartArt Style to the graphic. (1)

4.3.14 Insert a page break after paragraph 4. (1)

4.3.15 Find the word IEC and replace it with Electoral Commission in upper case, bold and italics. (2)

4.3.16 Insert the subheading after paragraph 5 as follows in upper case font Arial Black 20 pt:

THE VOTING PROCESS (4)

4.3.17 Insert two lines and insert the image named V-PROCESS from the STUDENT FILES FOLDER after the subheading The Voting process and apply square wrapping to the image. (2)

4.3.18 Crop the bottom part of the image to remove the explanation in numbers 1–6. (1)

4.3.19 Adjust the picture to 10.49 cm/4.13” in height and 18.36 cm/7.23” in width. (1)

4.3.20 Apply a simple black border to the image. (1)

Copyright reserved

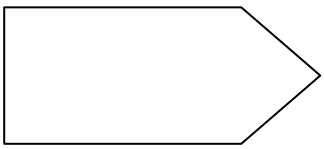

4.3.21 Insert a section break for the next page below the image on page 2. (1)

4.3.22 Change the page orientation of page 3 to landscape. (1)

4.3.23 Create THREE columns after the main heading with a vertical line between each column. (2)

4.3.24 Insert column breaks to ensure that each heading with its accompanying paragraphs appear in individual columns. (1)

4.3.25 Insert the pentagon shape below in the last column at the bottom centre.

(2)

4.3.26 Format the shape outline to Black, Text 1, Lighter 5% Shape Style. (1)

4.3.27 Move the text 'Developed by Jacana Media with the ELECTORAL COMMISSION' into the above shape. (1)

4.3.28 Print the document. (1)

[50]

QUESTION 5: SPREADSHEETS

QUESTION 5A

5.1 Retrieve the document saved as QUESTION 5 from your STUDENT FILES FOLDER and save it as QUESTION 5A. (1)

5.1.1 Insert your EXAMINATION NUMBER and the QUESTION NUMBER as a header in the centre of the spreadsheet.

EXAMINATION NUMBER
QUESTION 5A (2)

5.1.2 Move column C to column J. (1)

5.1.3 Insert the heading below in column C across rows 5 and 6, as follows:

% OF TOTAL POPULATION (2)

5.1.4 Change the number format to integers. (1)

5.1.5 Format the font of the main heading to Bernard MT Condensed 24 pt. (1)

5.1.6 Left align the date and format to display in full. (2)

Copyright reserved

5.1.7 Centre the spreadsheet vertically and horizontally across the page. (2)

5.1.8 Apply a double outline border to A5:J12. (1)

5.1.9 Apply 50% shading to the column headings and centre horizontally. (2)

5.1.10 Format the column headings to bold. (1)

5.1.11 Retrieve the image saved as REGISTER from your STUDENT FILES FOLDER and paste it in cell I1:J3. Adjust picture to fit. (3)

5.1.12 Apply a suitable border or any picture style to the image. (1)

5.1.13 Adjust column widths where necessary to ensure that ALL data are clearly displayed. (1)

5.1.14 Save the spreadsheet and print it in landscape orientation without row and column headings. (1)

QUESTION 5B

5.2 Retrieve the spreadsheet saved as QUESTION 5A and save it as QUESTION 5B.

5.2.1 Change the QUESTION NUMBER to 5B in the header. (1)

5.2.2 Find and replace text as follows:

a) MINIMUM with LOWEST
b) MAXIMUM with HIGHEST (2)

5.2.3 Use a function in E7 to calculate the FEMALES who REGISTERED as follows:

- MALE plus (MALE multiplied by 9%) (1)

5.2.4 Use the AutoFill function to copy the formula in E7 to E8:E12. (1)

5.2.5 Use a function in J7 to calculate the TOTAL CITIZEN POPULATION as follows:

- The sum of REGISTERED, NOT REGISTERED and NO RESPONSE (1)

5.2.6 Use the AutoFill function to copy the formula in J7 to J8:J12. (1)

5.2.7 Use a function in B13 to calculate the TOTAL POPULATION. (1)

Copyright reserved

5.2.8 Use the absolute cell reference function in C7 to calculate the % OF THE TOTAL POPULATION as follows:

- TOTAL POPULATION divided by B13 (2)

5.2.9 Use the AutoFill function to copy the formula in C7 to C8:C12. (1)

5.2.10 Use a formula in B14 to determine the LOWEST TOTAL POPULATION. (1)

5.2.11 Use a formula in H15 to determine the HIGHEST NO RESPONSE MALES. (1)

5.2.12 Use a formula in J16 to determine the AVERAGE TOTAL CITIZENS. (1)

5.2.13 Format numbers in the workbook to display as integers and column c as percentages (%) with NO decimals. (2)

5.2.14 Adjust column widths so that ALL data are clearly displayed. (1)

5.2.15 Save this spreadsheet and print with row and column headings. (1)

QUESTION 5C

5.3 Retrieve the spreadsheet saved as QUESTION 5B and save it as QUESTION 5C.

5.3.1 Display the formula. (7)

5.3.2 Adjust the column widths so that ALL formulae are legible. (1)

5.3.3 Change the question number in the header to QUESTION 5C. (1)

5.3.4 Save and print the document with row and column headings and gridlines. (1)

QUESTION 5D

5.4 Retrieve the spreadsheet saved as QUESTION 5B and save it as QUESTION 5D.

5.4.1 Create a 3-D pie graph to display the % OF TOTAL POPULATION for each AGE GROUP. (2)

5.4.2 Display the data labels on the outside end for each segment. (2)

5.4.3 Insert the chart title above the chart as follows:

% OF TOTAL POPULATION PER AGE GROUP (3)

Copyright reserved

5.4.4 Display the legend at the bottom of the chart. (1)

5.4.5 Insert your EXAMINATION NUMBER and the QUESTION NUMBER as a header aligned on the left.

EXAMINATION NUMBER
QUESTION 5D (1)

5.4.6 Save and print the chart as a new sheet. (1)
[60]

QUESTION 6: INFORMATION AND COMMUNICATION USING INTERNET EXPLORER

6.1 Open the answer file saved as QUESTION 6 from the STUDENT FILES FOLDER to record the answers to the questions below. Insert your EXAMINATION NUMBER in the header. (1)

6.2 Describe the steps to create a Favourite page (bookmark). (4)

6.3 Follow the steps in QUESTION 6.2 and create a print screen image of the dialog box on how to add a favourite. (3)

6.4 Use the Help and Support function to search for information on how to save a webpage as a file.

Copy and paste the information into the ANSWER FILE. (5)

6.5 Add the command Encoding from the available toolbars to the current toolbar buttons, make a print-screen image and paste it into the ANSWER FILE. (6)

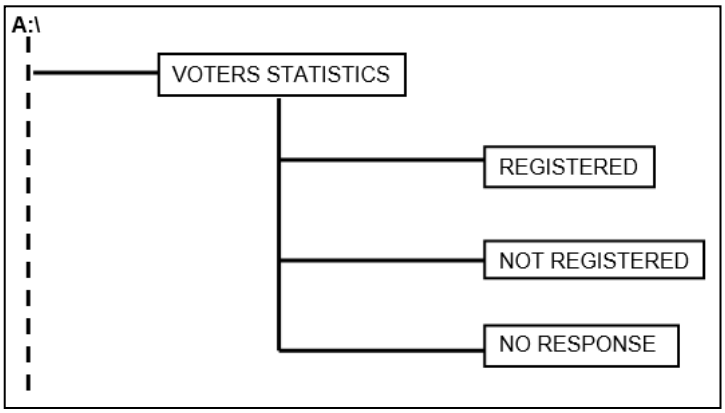

6.6 Print the document. (1)
[20]

Copyright reserved

QUESTION 7: BASIC CONCEPTS OF COMPUTER FILE MANAGEMENT

7.1 Open the document saved as QUESTION 7 from the STUDENT FILES FOLDER and use it to record the answers to the questions below. Insert your EXAMINATION NUMBER in the header. (1)

7.2 Create the following tree structure in the STUDENT FILES FOLDER and create a print screen image of the folder with Large Icon View. (10)

7.3 Open the REGISTERED folder and create a spreadsheet file named 75 AND OLDER. (4)

7.4 Copy the file saved as QUESTION 5C to the REGISTERED folder and change the icon view to Tiles. Make a print screen of QUESTIONS 7.3 and 7.4. (3)

7.5 Use the Help and Support functions to search for information on how to update an antivirus application on the computer. Copy and paste the information. (3)

7.6 Describe FIVE guidelines you would use to protect a computer against viruses. (5)

7.7 State what the acronym PDF stands for and explain what it means. (3)

7.8 Print the document. (1)

[30]

TOTAL: 300
