NATIONAL CERTIFICATE (VOCATIONAL)

OFFICE DATA PROCESSING
NQF LEVEL 4

(3061024)

1 March 2019 (Y-Paper)
13:00–16:30

THE QUESTION PAPER MUST BE HANDED TO CANDIDATES 30 MINUTES BEFORE THE COMMENCEMENT OF THE EXAMINATION SESSION.

A student folder with files loaded on a memory stick/flash disk/network drive for the candidate's use is also provided.

This question paper consists of 18 pages.

Copyright reserved

TIME: 3 HOURS
ADDITIONAL ½ FOR PRINTING ONLY
MARKS: 300

INSTRUCTIONS AND INFORMATION

1. Candidates must be given 30 minutes to read these instructions before commencing the actual examination.
2. Read ALL the questions carefully and answer ALL the questions.
3. Number the answers according to the numbering system used in this question paper.
4. ALL questions must be done on the computer with the aid of Microsoft Office 2010 or later. ALL printouts MUST be correctly numbered and both the examination number and the question number must be printed as instructed on each printout. The printouts must be placed in the folder provided in the correct sequence according to the questions in the question paper.
5. Scripts with handwritten examination numbers will NOT be accepted or marked. Scripts with different watermarks for the same candidate will be considered to be an irregularity.
6. The following fonts will be accepted: Arial, Courier New, or Times New Roman 12pt. In the spreadsheets Arial 10pt or Calibri 12pt must be used. However, one type of font must be used throughout the answering of the entire section of the question paper, except where instructed to change the font.
7. Candidates are to retrieve and use the various files from the STUDENT FILES folder loaded on their memory stick/flash disk/network drive (whichever one is used) to effect various commands as per instruction for the applicable questions.
8. The time allocated for the question paper is THREE hours. An additional THIRTY minutes may be allowed to a candidate for the printing of answers where a central printer is used in a venue. Printing may also be done during the three hours allocated to the processing of answers to prevent a queue of printing at the end of the examination.

Copyright reserved

9. During the additional printing time, candidates may only effect printing commands. No further keying in or editing may be done. It is recommended that additional invigilators who are knowledgeable about computers invigilate during the additional 30 minutes printing time to provide extra assistance and control.

10. In the event of a power failure or a computer or printer breakdown, the invigilator must make the necessary arrangements for the candidate to continue, and the actual time lost must be given to the candidate once he/she resumes working.

11. Each answer should be printed on a separate sheet of A4 paper and on ONE side of the paper only. Invigilators will instruct candidates and control printouts, which must be placed in the EXAMINATION FOLDERS immediately after printing.

12. PRINTOUTS to be marked must be arranged in the same order as that of the questions in the examination paper and put in the candidate's examination folder (only ONE PRINTOUT per question or subsection of a question may be handed in). At the end of the examination ALL PRINTOUTS on which errors occur and which should not be marked together with the question paper must be handed to the invigilator. NO PRINTOUTS whatsoever may be removed from the EXAMINATION ROOM or put into waste-paper bins.

13. ALL work should be saved at regular intervals to prevent loss of work in the event of a power failure. NO additional time may be allowed for such lost work. It is the candidates' responsibility to protect their answers through regular saving in order to prevent loss of work.

14. At the end of the examination session, each candidate must hand in the printouts as well as the memory stick/flash disk (or other storage device which may be used) with the saved answers (properly marked with the candidate's EXAMINATION NUMBER on the cover). If a network is used, the network manager must make a backup copy of all the candidates' work under supervision of the invigilator. (These memory sticks/flash disks and/or backup copies for example CD, must be handed to the examination section of the campus for safekeeping for one year in case enquiries should be made by the examiner/moderator/superintendents of education and/or Umalusi.)

15. The hard drive of the computer, i.e. drive C, including My Documents, may not be used for the saving of documents in the event of other groups using the same venue during more than one session. If the same venue is being used for different groups, the hard drive of the computers must be checked and cleared before the next group commences with the examination session.

16. NO candidate may print his/her work for another candidate, or make his/her memory stick/flash disk available to another candidate or access another candidate's work on the network. Any attempt to access information from or transfer information to another candidate, in whatever manner is a contravention of the examination rules and regulations and will be viewed in an extremely serious light.

Copyright reserved

17. Candidates are reminded to save their work regularly, to prevent loss of work.

18. Candidates are encouraged to spell check each completed question before printing. Marks are deducted for work that is not accurately typed.

19. **HOW TO USE THE PRINT SCREEN FUNCTION**

- Press the print screen button found in the top row of the keyboard [next to F12 function key].
- Minimise that screen and open the ANSWER SHEET required for the answers.
- Place the cursor at the position where the answer must be inserted.
- Press CTRL+V on the keyboard OR click the Paste icon on the home ribbon (Office 2007 and 2010).

QUESTIONS		**ALLOCATED TIME**	**MARKS**
QUESTION 1	Timed accuracy test	10	20
QUESTION 2	Agenda of meeting	20	40
QUESTION 3	Databases	40	60
QUESTION 4	Presentations	40	60
QUESTION 5	Spreadsheets	40	60
QUESTION 6	Communication	15	30
QUESTION 7	Audio typing	15	30
TOTAL		3 hours (30 minutes extra for printing)	300

SCENARIO

You are an intern at a NGO called Save it or Lose it, who deals with saving natural sources. You have been appointed to do the following administrative tasks:

- Typing of all meeting documents
- Making use of appropriate software to type the recorded documents
- Keeping records using a database program and spreadsheets
- Edit the presentations that the company uses
- Manage your manager's e-mails

SECTION A: DEVELOPING KEYBOARD PROFICIENCY

SPECIFIC INSTRUCTIONS REGARDING THE TIMED ACCURACY TEST: (QUESTION 1)

- The candidate must be allowed to read through the accuracy test at least FIVE minutes before the commencement of the examination.
- All candidates will perform the timed accuracy test (QUESTION 1) together at the instruction of the invigilator.
- The timed accuracy test must be done once only, at the beginning of the examination.
- On the expiration of the 10 minutes allowed for the timed accuracy test, the invigilator will collect all tests and will initial after the last keyed-in word on each page. The invigilator will retain the tests until the examination has been completed and will, in the presence of the candidates, place these tests into each candidate's folder.
- If a candidate arrives late (i.e. after the first 10 minutes) the candidate will NOT be allowed to do QUESTION 1 and must be informed that he/she must start at QUESTION 2 onwards, only when all candidates have handed in the QUESTION 1. No PRINTOUT for QUESTION 1 will be accepted for this candidate.

This question will test your touch-typing. Read and apply all instructions given.

INSTRUCTIONS:

In this question you are required to create a Microsoft Excel Spreadsheet

1.1 Insert your EXAMINATION NUMBER and QUESTION 1 as a header against the left margin as follow:

EXAMINATION NUMBER
QUESTION 1

1.2 The minimum speed requirement is 40 words per minute. You will need to achieve the required speed with a maximum of 11 errors in order to pass the speed and accuracy test.

1.3 This is a timed accuracy test for 10 minutes, which means candidates must start and stop on the instruction of the invigilator.

1.4 Save the document as QUESTION 1.

In South Africa, the right to water is enshrined in the constitution and implemented by ordinary statutes.

Conserving water not only has an enormous effect on the environment and the ongoing shortage of water in South Africa, but it can also save you a significant amount of money as you consume and thereby heat less water each year.

Water conservation is particularly important in South Africa, where not everyone has easy access to clean drinking water and where the installation of one tap in an informal settlement is considered an achievement. Part of the battle to provide clean drinking water for all South African citizens is to balance the needs for sustainable and responsible water use with the needs of a growing urban population and the pressures on existing water systems.

Companies stock a range of products and equipment to aid residential and commercial efforts to conserve water. From water conserving shower heads to low flush toilet products to organic composters and garden/agriculture products that lend to the natural conservation of water, we want the

Copyright reserved

products and equipment necessary to make conserving water as easy as possible.

Repairing leaking taps and pipes is one of the easiest methods to conserve water in and around the home; another water conservation tip is to teach children to switch off taps when they brush their teeth or wash their faces. By educating kids about the importance of water conservation early on you can create water saving advocates for the future.

Studies show that an average suburban house can reduce its water consumption by 30-40% without much effort or sacrifice. With some simple water recycling solutions you can cut your water consumption by half per day. And, if you add recycling grey water to your efforts, you can increase that figure to 60%.

40 wpm

Grey water is the water that is left at the end of certain domestic processes, such as showering, bathing and washing dishes and laundry. More than 50% of domestic waste water production is grey water, which means that any recycling system you use has an enormous impact on household water consumption. The water left over after you have washed your car is also considered grey water.

45 wpm

Recycling car wash water is probably the easiest way to recycle water because all you have to do is slosh it over your lawn.

Recycled water is better suited to certain purposes than others. Recycled grey water should never be used for potable water purposes like cooking or drinking without proper purification. **50 wpm**

QUESTION 3A

Your next task is to create a database to keep record of the stock in the organisation.

3.1 You are required to create a database and table using appropriate data types, distinguishing between text, numbers, currency and so forth.

3.1.1 Open the database program on your computer and create the database SHOWER. Create the table below and use the table name SHOWER HEADS and EXAMINATION NUMBER: (8)

FIELD NAME	DATA TYPE	FIELD SIZE/FORMAT
CODE	TEXT/Short Text	4
ITEM	TEXT/Short Text	20
STOCK ON HAND	NUMBER	0 Decimal places
RE-ORDER LEVEL	NUMBER	0 Decimal places
PRICE PER UNIT	CURRENCY	Default settings
PURCHASE DATE	DATE	Long date

3.1.2 Do NOT select a primary key. (1)

3.1.3 Print the structure of the table and save. (1)

3.1.4 Enter the following records in the database: (14)

CODE	ITEM	STOCK ON HAND	RE-ORDER LEVEL	PRICE PER UNIT	PURCHASE DATE
C345	Idyllic Rain	55	10	R566,44	27 November 2018
N129	Idyllic Rain Pro	45	5	R999,99	22 May 2018
G429	Idyllic Rain Cube	36	5	R876,22	28 November 2018
F765	Idyllic Hand Shower	23	3	R1 500,20	13 August 2018
L519	Rose Shower	120	20	R120,45	17 October 2018
C296	Rose Kubo	14	10	R323,87	17 March 2018
D348	Tseyu Kubo	34	10	R195,99	29 August 2018
Y931	Tseyu Standard	155	50	R155,00	30 May 2018

3.1.5 Save the table and make a printout in landscape orientation ensuring that all data is clearly displayed on one page. (2)

3.1.6 Sort the table in ascending order, according to the STOCK ON HAND field. (2)

3.1.7 Change the field properties of the ITEM field to 21. (2)

Copyright reserved

3.1.8 Insert a new record as shown below. (4)

CODE	ITEM	STOCK ON HAND	RE-ORDER LEVEL	PRICE PER UNIT	PURCHASE DATE
Q191	Idyllic Rain Standard	12	6	R699,57	1 March 2018

3.1.9 Print the table ensuring that all fields and corresponding data are appropriately displayed on one page. Save and close the table. (2)

QUESTION 3B

3.2 In this question your will create and edit QUERIES in the database.

3.2.1 Create a query using the SHOWER HEADS table with the following fields: ITEM, PRICE PER UNIT and PURCHASE DATE. (4)

3.2.2 Add more than one criterion to filter the Price Per Unit field to only show records which are higher than R800 and purchased between 1 August 2018 and 30 November 2018. (4)

3.2.3 Save the query as QUESTION 3B and your EXAMINATION NUMBER. Print ONE copy of the query. (2)

QUESTION 3C

3.3 In this question you will create and edit FORMS in the database.

3.3.1 Use the default settings to create the forms using the SHOWER HEADS table with the following fields: ITEM, STOCK ON HAND and RE-ORDER LEVEL. (4)

3.3.2 Change the Form Title to SHOWER STOCK FORMS and your EXAMINATION NUMBER. (2)

3.3.3 Insert the image called SHOWER from the STUDENT FILES folder as a logo to appear on the left side of the heading. (3)

3.3.4 Insert a page break to separate the forms. (1)

3.3.5 Save the forms as QUESTION 3C and paste a print screen image of the form in design view in the space provided in the answer sheet. Insert your EXAMINATION NUMBER in the header and print the document. (2)

3.3.6 Print only the first record of the forms in portrait orientation. (2)

[60]

Copyright reserved

QUESTION 4

You are required to use a presentation application to create your own template and applying basic formatting functions. Save at regular intervals and print immediately when given an instruction to do so.

4.1 Open the answer sheet file QUESTION 4, from the STUDENT FILES folder. Insert your examination number in the space provided in the header and print at the end of the question.

4.1.1 Open a blank presentation and save as a PowerPoint template called DROP. (2)

4.1.2 Create a print screen image to show the dialog box how you have saved the file as a template and paste it in the space provided in answer sheet file. (1)

4.2 Use the Slide Master View to edit the template DROP as shown below.

4.2.1 Apply a theme of your choice with a light background colour. (2)

4.2.2 Apply a font of your choice to all layouts. (2)

4.2.3 Insert a header to appear in the centre of all slides:

DROP BY DROP (4)

4.2.4 Select the title placeholder and apply the following custom animation:

- Animation: Swivel
- Start: On Click
- Duration: 02.00 (7)

4.2.5 Save the presentation as DROP2 and create a print screen image showing the Animation pane and the selections made in Q4.2.1-Q4.2.4. Paste the image in the space provided in the answer sheet file.

Close the Slide Master View. (3)

4.3 Format the presentation DROP2, as follows:

4.3.1 Select the title placeholder in Slide 1 and insert the following text:

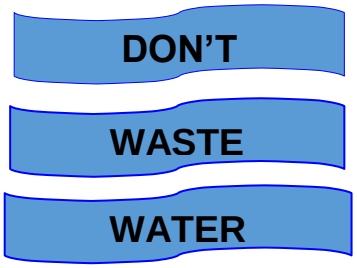

RESPECT WATER, RESPECT LIFE! (3)

4.3.2 Insert the image called DROPS from the STUDENT FILES folder in the title placeholder of Slide 1 where it looks best. (3)

Copyright reserved

4.3.3 Insert a blank slide to become Slide 2. (1)

4.3.4 Insert the flowchart shape called Punched Tape in Slide 2 and make 2 more copies of the shape as shown below.

(3)

4.3.5 Align the shapes as set out above and add the text using font size 44pt. (5)

4.3.6 Insert the following speaker note in Slide 2:

South Africa is classified as a semi-arid country and many people do not have access to enough water. (5)

4.3.7 Group the 3 flowchart shapes together in Slide 2. (2)

4.3.8 Make a print screen image of Slide 2 in Outline View to show the grouping of the shapes and the speaker note. Paste the image in the space provided in the answer file. (2)

4.3.9 Insert a new slide as Slide 3 and in Title and Content slide format. (2)

4.3.10 Insert the following title:

Water footprint of 1 kg bread = 1 600 litres of water (4)

4.3.11 Insert a table with the following text just below the title:

GREY WATER	11%
BLUE WATER (IRRIGATION)	19%
GREEN WATER (RAIN)	70%

(6)

4.3.12 Insert your details as a header against the left margin as follows:

EXAMINATION NUMBER
QUESTION 4

Save the presentation as DROP2 and print as handouts, 3 slides per page. (3)

[60]

QUESTION 5

In this question you are expected to work with spreadsheets applying: Work with multiple worksheets, comments, protecting worksheets and refine sorting using filtering.

5.1 Retrieve the answer sheet file QUESTION 5 from the STUDENT FILES folder and paste ALL print screen images in the space provided as required for each question. Print the document at the end of the question.

Retrieve the spreadsheet file saved as LEVELS from the STUDENT FILES folder. (1)

5.1.1 Copy the contents of the PROVINCES worksheet to the DUPLICATE sheet, keeping the same format. (3)

5.1.2 Make a print screen image of the DUPLICATE sheet to show the copy and paste function performed and paste in the spaced provided in the answer sheet. (1)

5.1.3 Delete Row 4 in the PROVINCES worksheet. (2)

5.2 Use the Custom Filter function in the PROVINCES worksheet to do the following:

5.2.1 (a) Apply a filter to show only the Western Cape dams. Copy and paste it in the WP sheet from A2. (4)

(b) Make a print screen image of the WP sheet and paste in the space provided in the answer sheet. Clear the filter. (1)

(c) Apply a filter to show only the KwaZulu-Natal dams. Copy and paste it A2 in the KZN worksheet. (4)

(d) Make a print screen image of the KZN sheet and paste in the space provided in the answer sheet. Clear the filter. (1)

5.3 Edit the DUPLICATE worksheet as follows

5.3.1 (a) Sort the range A5:F47 according to Column D from largest to smallest. (4)

(b) Make a print screen image and paste in the space provided in the answer sheet. (1)

(c) Sort the range A5:F47 according to Column E from smallest to largest. (4)

(d) Make a print screen image and paste in the space provided in the answer sheet. (1)

Copyright reserved

5.3.2 (a) Use the Freeze Panes function to display only Rows 40 to 47. (3)

(b) Make a print screen image and paste in the space provided in the answer sheet. (1)

5.3.3 Insert the comment below in bold print in B45.

This dam is one of the smallest dams reviewed in this report. (6)

5.3.4 Insert your Examination Number and QUESTION 5.2.4 in the centre section of the header.

Print this worksheet with the row and column headings and the comment as displayed on the sheet in B45. Adjust margins if necessary to print on one sheet. (5)

5.4 Import the WP worksheet space in the answer sheet. (2)

5.5 Format the KZN worksheet as shown below:

5.5.1 Protect this worksheet with ODPL4 as password. Make print screen images as indicated below and paste in the space provided in the answer sheet. (2)

(a) Protect Sheet dialog box; (2)
(b) Confirm Password dialog box; (2)
(c) MS Excel window with the Changes Tab visible for this worksheet. (3)

5.5.2 Try to delete the content of C7, make a print screen image to show the dialog box stating that the sheet is protected and paste in the space provided in the answer sheet. (4)

5.5.3 Protect the workbook with a password of your choice, make a print screen image of the workbook window and past in the space provided in the answer sheet. (3)

. **[60]**

QUESTION 6

In this question you have to manage e-mails using Microsoft Outlook.

6.1 Open the file QUESTION 6 from the STUDENT FILES folder and insert your EXAMINATION NUMBER in the header. Print the document at the end of the question.

6.1.1 Open the file PROTECT from the STUDENT FILES folder and use the password ODPL4 to protect the document from unauthorised persons. (2)

6.1.2 Create TWO print screen images to show the following:

(a) The dialog box to show the encryption process. (2)

(b) The dialog box when the password is re-entered. (2)

6.2 Create a new e-mail in Microsoft Outlook as shown below: (1)

6.2.1 Create a signature named ZIYANDA using a font of your choice to insert at the end of the e-mail message:

ǂ
Regards
ǂ
ZIYANDA MTANA
ziyanda@dropbydrop.com

Your Examination Number } Arial 12pt
QUESTION 6 (3)

6.2.2 Insert the image DROPS from the STUDENT FILES folder to appear below the signature and resize it smaller. (3)

6.2.3 Create a print screen image of the Stationery and Signatures dialog box and paste in the space provided in the answer sheet. (2)

6.2.4 Compose the following e-mail message:

To: k.magopeni@gmail.com
naidoo.mm@intake.co.za (2)

6.2.5 Cc: m.windvogel29@dropbydrop.com (1)

Copyright reserved

6.2.6 Attach the encrypted file named PROTECT in the STUDENT FILES folder to the message. (1)

6.2.7 Subject: UPCOMING SYMPOSIUM ON WATER FOOTPRINTS (2)

6.2.8 Type the following message:

Good day

Please receive herewith your program and material for the symposium on water footprints and other important issues around the conservation of water.

Make sure that you save and use the password that was forwarded to you today by SMS to open the encrypted document. (6)

6.2.9 Insert the Signature ZIYANDA at the end of the message. (2)

6.2.10 Make a print screen image of the e-mail message to show the results for Q6.2.5-Q6.2.10 and paste in the space provided in the answer sheet. (1)

Print QUESTION 6 and place it in the correct sequence in your answer folder.

[30]

NCV

QUESTION 7: AUDIOTYPING

QUESTION 7 is typed in a MS Word document. Read it while listening to the audio transcript from your media file. You may use Windows Media Player together with your earphones or any other media player loaded on your computer.

DOCUMENT:	Advertisement	**PAPER:**	A4 Portrait
MARGINS:		**JUSTIFICATION:**	Left
Left:	1.5”/3.81 cm		
Right:	1”/2.54 cm	**LINE SPACING:**	As indicated
		TIME:	15 minutes
FONT:	Courier 12pt (unless otherwise indicated)	**MARKS:**	30

INSTRUCTIONS

1. Open the audio file named QUESTION 7 AUDIO from the STUDENT FILES FOLDER and follow the audiotyping instructions.

2. Insert your EXAMINATION NUMBER in the footer as indicated.

3. Save the document as QUESTION 7 and print the document.

Words given: brush, displacement, cistern, devices, dishwasher, hosepipe, water-efficient, litres
