QUESTIONS		ALLOCATED TIME	MARKS
SECTION A			
QUESTION 1	Timed accuracy test	10 minutes	20
QUESTION 2	Agenda of meeting	20 minutes	40
QUESTION 3	Databases	40 minutes	60
QUESTION 4	Presentations	40 minutes	60
QUESTION 5	Spreadsheets	40 minutes	60
QUESTION 6	Communication	15 minutes	30
SECTION B			
QUESTION 7	Audio typing	15 minutes	30
TOTAL		3 hours (30 minutes extra for printing)	300

INSTRUCTIONS TO MARKERS

To facilitate marking and moderation, the following must be adhered to when marking:

Manipulation

- Use a **blue pen** for **all** manipulation commands carried out.
- Use a **tick**/s and the question number for every **correct** manipulation carried out, as indicated in the marking guideline.
- Use an **X** (cross) to mark manipulation incorrectly done.
- The **question number** must be written next to every **tick** or **X** (e.g. 1.3✓✓)

Accuracy

- Use a **red tick** to indicate ALL accuracy marks.
- Use a **red X** to indicate ALL accuracy errors.
- For each command, the **question number** must be written next to every **tick** or **X** (e.g. 1.4 ✓✓✓✓XX).

Timed accuracy test

- The timed accuracy test will be marked according to the given schedule for QUESTION 1.
- A candidate failing speed, but obtaining 50% or more for the whole examination paper, is competent in the examination.
- A candidate passing speed, but failing the examination paper, FAILS the examination paper as well as the speed.

Copyright reserved

SECTION A: DEVELOPING KEYBOARD PROFICIENCY

QUESTION 1: TIMED ACCURACY TEST MARKS: 20

NOTE: THE ACCURACY TEST MUST BE MARKED VERY CAREFULLY AS IT IMPACTS ON THE RESULTS. MARK ACCURACY ERRORS ONLY.

1. The mark schedule attached must be used to allocate marks.

2. When the same word is repeatedly typed incorrectly, it is penalised the first time only (once) and encircled thereafter, per question.

3. Omission of words: Count the first 5 strokes (including spaces) and thereafter every 10 strokes is 1 error each.

4. Should a word/s or a paragraph be omitted, but it appears at the bottom of the answer, only ONE accuracy error will be deducted and it must not be penalised as an omission of words.

5. Should word/s or a paragraph be repeated, only ONE accuracy error will be deducted for all the words or paragraphs.

6. If 40 wpm is NOT reached, count backwards for words omitted (which are penalised as errors) as indicated in the marking guideline by the numbers above the words – which indicate the errors for words omitted. The same can be done if a student has passed 40 wpm and may have ONE or TWO words to 45 wpm. However, the speed with the highest marks must be selected.

7. Indicate the speed obtained with a P/S (pass speed) 40 wpm/45 wpm or F/S (fail speed), on the student's cover page next to the mark for the speed and indicate the speed obtained next to the percentage obtained.

8. In QUESTION 1, the highest mark obtained will be indicated; number of errors, the highest speed obtained as well as whether it is a pass or fail as set out below, for example:

Pass/Fail speed	**P/S**
Number of errors	**3**
Mark achieved	**17/20**
WPM achieved	**40 wpm**

10. The speed reached is endorsed on the cover of the ANSWER SHEET; next to the percentage obtained for the entire paper (within the circle), for example:

40 wpm

11. Do NOT penalise the following:

- Incorrect casing (upper/lower case)
- Incorrect letter spacing
- Incorrect hyphenation
- Incorrect line spacing
- Incorrect paragraphing
- Incorrect justification

QUESTION 1

Under the microscope, Listeria species appear as small rods, 61
which are sometimes arranged in short chains. In direct smears, 125
they may be coccoid, so they can be mistaken for streptococci. 186

Listeria can be found in soil, which may lead to vegetable 247
contamination. Animals can also be carriers. Listeria has been 310
found in uncooked meats, uncooked vegetables and fruit such as 370
melons and apples. Pasteurisation and sufficient cooking kill 432
Listeria. Contamination may occur after cooking and before 491
packaging. For example, meat-processing plants producing ready- 554
to-eat food, such as hot dogs and deli meats, must follow 611
extensive sanitation policies and procedures to prevent 677
Listeria contamination. 691

Listeria monocytogenes is commonly found in soil, stream water, 756
sewerage, plants and food. Listeria is responsible for 811
listeriosis, a rare but potentially lethal food-borne illness. 872
The fatality rate for those with a severe form of infection may 937
approach 25%. Listeriosis is a serious illness, and the disease 1001
may manifest as meningitis, or affect newborns due to its 1059
ability to penetrate the endothelial layer of the placenta. 1118

Preventing listeriosis as a food-borne illness requires 1173
effective sanitation of food contact surfaces. Ethanol is an 1234
effective tropical sanitiser against listeria. Refrigerated 1294
foods in home should be kept below 4 degree Celsius to 1349
discourage bacterial growth. Consumption of unpasteurised dairy 1413
products should be avoided. All raw meats and seafood should be 1477
cooked to a safe internal temperature of 73 degrees Celsius to 1540
properly kill the food-borne pathogen. 1578

Copyright reserved

In non-invasive listeriosis, the bacteria often remain within the digestive tract, causing mild symptoms lasting only a few days and requiring only supportive care. Muscle pain and fever in mild cases can be treated with over-the-counter pain relievers, and diarrhea and gastroenteritis can be treated with over-the-counter medications if needed

40 wpm

In invasive listeriosis, the bacteria have spread to the bloodstream and central nervous system. Treatment includes intravenous delivery of high-dose antibiotics and inpatient hospital care. Duration of hospital care varies depending on how widespread the infection is, but is usually no less than two weeks.

45 wpm

A symptomatic patient who has been exposed to Listeria is not recommended for treatment. These patients should be informed of the signs and symptoms of the disease and to return for medical care if symptoms present.

50 wpm

Better understanding the cell biology of Listeria infections, including relevant virulence factors may lead to better treatments for listeriosis.

1 L/M 1"/2,54 cm **2 font size and font type** **1 L/M 1"/2,54 cm**

WE SHOULD KNOW **5 bold, uc, 16pt** **1 justification/hyphenation**

Minutes of a meeting held by the task team in the staff room on the second floor of the main building, on Wednesday, 22 August 2019 at 11:00 to roll out the forthcoming information day. **4 transpose**

PRESENT **5 uc** **2 line spacing** **2 letter spacing**

Mr R. Monwabisi (task team manager), Ms L. Kwezi (administration clerk), Ms P. Tima (treasurer), Mr L. Jantjies, Mr R. Pillay and Mr K. Gouws.

APOLOGIES **5 uc**

Ms Rala and Mr Petros **7 insert text**

3 tab setting correct and indent

1. MINUTES **5 uc**

4 stet

The minutes of the meeting of 16 May were read. The following correction was made - Pamphlets were paid from the current account and not the donations account as indicated. With this amendment, the minutes were signed off as correct. **7 insert "the"**

2. FINANCIAL STATEMENT **5 uc**

6 spelling "treasurer" **7 insert "the"**

The financial statement (ANNEXURE A), was read and the treasurer was requested to verify if an amount of R500 for donations was correctly recorded and to report at the next meeting. **4 "&" in full**

3. NEW MATTERS

3.1 INFORMATION DAY **5 uc**

7 insert "the" **7 insert "2019"**

The information day will be held on 21 September 2019 in the Civic Centre. Invitations will be e-mailed to all NGOs on the attached list (ANNEXURE B).

3.2 STALL HOLDERS **5 uc**

6 run on

The attached e-mail (ANNEXURE C) from the Health Department was read. A resolution was taken any Public Resolve: That any Public Relations department may attend the information day if they can put up and man their own stalls. **7 insert "the"**

2 **8 insert page 2 correctly**

3 line spaces

7 insert "organiser"

3.2 Mr Pillay was appointed as the organiser for all the activities of the information day. **7 insert "the"**

4. DATE OF NEXT MEETING **5 uc**

7 insert "the"

It was agreed that the task team meetings will take place weekly until the information day planning has been completed.

5. CLOSURE **3 tab setting correct and indent** **5 uc** **7 insert text**

The meeting adjourned at 13:00.

R. MONWABISI **8 closure**

[40]

QUESTION 3: DATABASES **MARKS: 60**

QUESTION 3A

Create a database to keep record of the stock to be destroyed by the factory producing it.

3.1 Created a database and table using appropriate data types, distinguishing between text, numbers, currency, et cetera.

3.1.1 Opened the database program on the computer and created the database COLDMEAT. Created the table below and used the file name COLDMEAT and EXAMINATION NUMBER: (2)

FIELD NAME	DATA TYPE	FIELD SIZE/FORMAT
CODE	TEXT/SHORT TEXT	4
ITEM	TEXT/SHORT TEXT	25
PACKAGING SIZE (g)	NUMBER	Long integer
STOCK LEVEL	NUMBER	Long integer
PRICE PER UNIT	CURRENCY	2 decimals
DATE DESTROYED	DATE	Short date
DESTROYED	YES/NO	Default

(7)

3.1.2 Did NOT select a primary key. (1)

3.1.3 Saved the table and printed the structure of the database. (1)

3.1.4 Entered the following records in the database: (10)

CODE	ITEM	PACKAGING SIZE (g)	STOCK LEVEL	PRICE PER UNIT	DATE DESTROYED	DESTROYED
X134	Smoked Viennas	500	10 000	R44,99	01-Mar-18	Yes
Y987	Smoked Viennas	350	12 000	R26,99	20-Apr-18	No
Z567	Smoked Red Viennas	1 000	15 000	R81,88	07-Mar-18	No
R129	Smoked Cheesy Viennas	125	9 000	R38,77	04-April-18	Yes
S345	French Polony	350	19 000	R23,99	23-Mar-18	Yes
T454	French Polony	500	25 000	R39,99	10-Apr-18	Yes
V565	French Polony	1 000	24 000	R46,45	21-Mar-18	Yes
W989	Country Ham	125	8 000	R19,99	15-Mar-18	Yes

3.1.5 Printed the table in landscape orientation ensuring that all the data is displayed on one page. (2)

3.1.6 Copied and pasted the database structure with data and change the table name to COLDMEAT2. (2)

3.1.7 Made a print screen image of the Paste Table As dialog box and pasted in the space provided in QUESTION 3 (answer file). (1)

3.1.8 Deleted the DESTROYED field and contents in the COLDMEAT2 table. (2)

3.1.9 Sorted the COLDMEAT2 table from oldest to newest according to the DATE DESTROYED field. (2)

3.1.10 Changed the code S345 to P453. (1)

3.1.11 Changed the word Cheesy for item code R129 to Cheese. (1)

3.1.12 Printed the table in landscape orientation ensuring that all the data is displayed on one page. (2)

QUESTION 3B

3.2 In this question you are required to create and edit a QUERY.

3.2.1 Used the table COLDMEAT2 and created a query using the following fields: ITEM, PACKAGING SIZE (g), STOCK LEVEL and DATE DESTROYED. (5)

3.2.2 Used the default settings to created the query and save as DESTROYED COLDMEAT and your EXAMINATION NUMBER. (1)

3.2.3 Added more than one criterion to filter only the French Polonies whose packaging size is bigger than 500 g. (4)

3.2.4 Printed and saved the query. (1)

QUESTION 3C

3.3 In this question you are required to create and edit a REPORT.

3.3.1 Used the table COLDMEAT2 to create a report with the following fields - ITEM, STOCK LEVEL, PRICE PER UNIT and DATE DESTROYED. (5)

3.3.2 Created the report using the default settings to create the REPORT and change the title to DESTROY DATE and your EXAMINATION NUMBER positioned in the centre. (3)

3.3.3 Inserted a logo saved as ANNOUNCE in the STUDENT FILES folder to appear in the centre of the report footer. (4)

3.3.4 Changed the font type and colour of the report header to Chiller 20pt in black. (2)

3.3.5 Printed the report in portrait orientation and saved as DESTROY DATE and your EXAMINATION NUMBER. (1)

[60]

QUESTION 4: PRESENTATIONS **Time: 40 minutes**

Create and edit a presentation, using a presentation application to apply basic actions and format a presentation. Save at regular intervals and print immediately when given instruction to print.

4.1 Opened the saved presentation called PRESENTATION from the STUDENT FILES folder. (1)

Opened the MS Word document QUESTION 4 from the STUDENT FILES folder and where required, pasted ALL print screen images in the spaces provided.

4.2 Did the following changes using the Slide Master:

4.2.1 Selected the title placeholder to edit the master title style and changed the font to Britannic Bold. (3)

4.2.2 Selected the master text styles and changed the font to Berlin Sans FB Demi. (2)

4.2.3 Inserted a footer to the left to appear on ALL slides: LISTERIOSIS CAN AFFECT ALL OF US (3)

4.2.4 Inserted the slide number to appear on all slides in the footer on the right side. (1)

4.2.5 Selected the title placeholder and applied the following custom animation. Shown the animation pane.

- Lighten
- Start on the click
- Set the timing to 02.00 and the delay on 01.00 (5)

4.2.6 Before closing the Slide Master view, created a print screen image of the Slide Master view to show ALL the above actions and pasted it in the corresponding table in QUESTION 4. (1)

4.2.7 Inserted the EXAMINATION NUMBER in the space provided in QUESTION 4. Saved the MS Word document called QUESTION 4 and kept it open. Closed the Slide Master view.

4.2.8 Inserted the text below in the title placeholder of Slide 1:

LISTERIOSIS (2)

4.2.9 Selected the subtitle placeholder and added the following text:

LISTERIOSIS IS A SERIOUS INFECTION CAUSED BY EATING FOODS CONTAMINATED WITH THE BACTERIUM LISTERIA! (4)

4.2.10 Inserted the image BUG from the STUDENT FILES folder to appear above the title placeholder. Resized the image to fit above the title. (4)

4.2.11 Inserted a new Title and Content slide to become Slide 2. (2)

4.2.12 Added the text below as title in Slide 2.

THIS DISEASE AFFECTS … (1)

4.2.13 Added the text below, using bullets of choice, in the content placeholder of Slide 2.

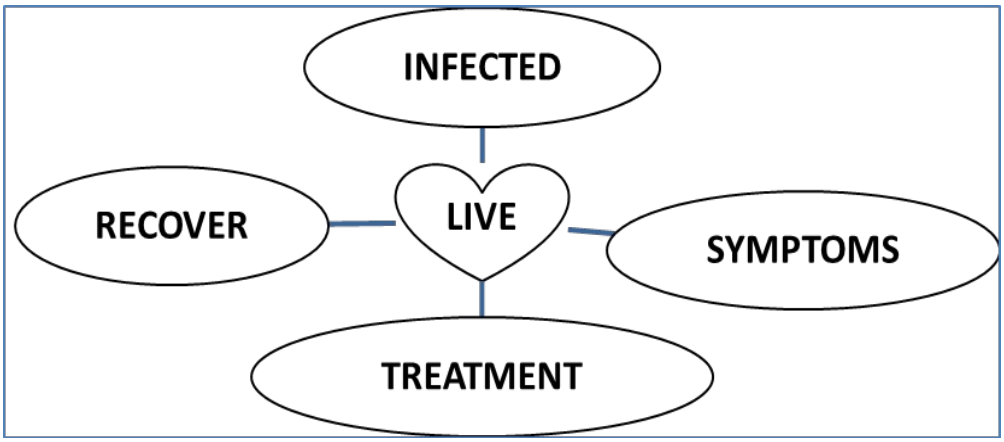

- Pregnant women
- Newborns
- Adults with weakened immune systems
- Elderly (6)

4.2.14 Inserted/Reused the slides from the presentation saved as LISTERIOSIS in the STUDENT FILES folder to become Slides 3 to 6. (3)

4.2.15 Created a print screen image to show the dialog box that appears when executing the function above. Pasted it in the space provided in QUESTION 4 and insert your EXAMINATION NUMBER in the header. (1)

4.2.16 Formatted the bulleted list on Slide 3 to a numbered list. (2)

4.2.17 Inserted the Basic Radial SmartArt graphic on Slide 5 and formatted to look like the image below:

(6)

4.2.18 Formatted the chart type on Slide 6 to a 3-D Column. (2)

4.2.19 Inserted a new Title and Content slide to become Slide 7. (2)

4.2.20 Inserted the text below as title on Slide 7.

SHARE THIS (1)

4.2.21 Inserted the sound clip named LISTEN from the STUDENT FILES folder in Slide 7 and enlarged the icon ensuring that it does not cover any text. (4)

4.2.22 Deleted Slide 4. (1)

4.2.23 Inserted a header against the left margin as follows:

EXAMINATION NUMBER
QUESTION 4 (1)

4.2.24 Saved and printed as hand-outs, 2 slides per page. (3)

4.2.25 Saved and printed QUESTION 4.

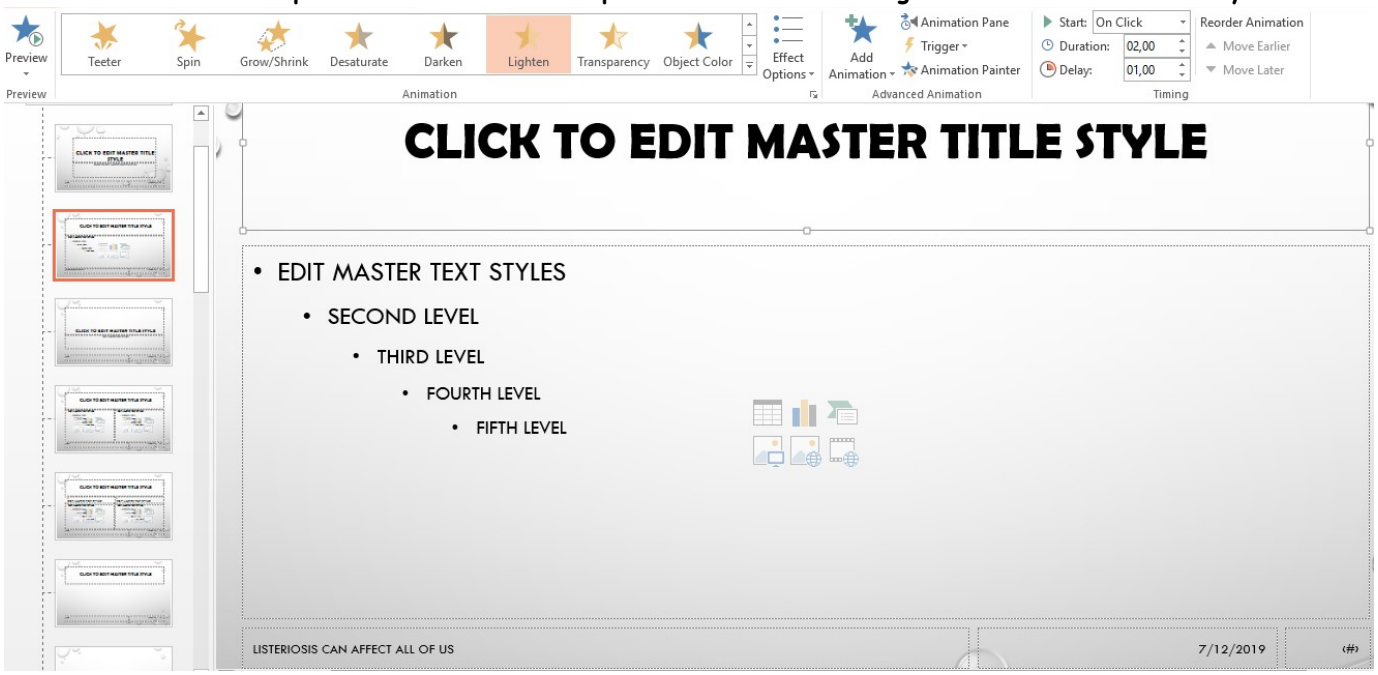

[60]

TOTAL 60

QUESTION 5: SPREADSHEETS **Time: 40 minutes**

You have to apply spreadsheets in this question, work with multiple worksheets, comments and protecting worksheets and refine sorting using filtering.

5.1 Retrieved the workbook saved as NUMBERS from the STUDENT FILES folder. (1)

Opened the MS Word document QUESTION 5 from the STUDENT FILES folder and where required, pasted ALL print screen images in the spaces provided.

5.1.1 (a) Copied the range A2:A11 from the PROVINCES worksheet and pasted in A1 in the FILTER worksheet. (2)

(b) Copied the range C2:D11 from the PROVINCES worksheet and pasted in B1 in the FILTER worksheet. (2)

(c) Created a print screen image of the FILTER worksheet and pasted in the space provided in QUESTION 5. (2)

5.1.2 Formatted the FILTER worksheet as indicated below.

(a) Copied the range A1:C10 and paste in A12:C21. (2)

(b) Inserted a filter in Row 12. (1)

(c) Filtered the Discharge column to show the number Greater Than and Equal To 30. (3)

(d) Filtered the Pending column to show the number Greater Than and Equal To 10. (3)

(e) Created a print screen image of the worksheet and pasted in the space provided in QUESTION 5. (1)

(f) Printed the worksheet with Row and Column headings on one page and cleared the filter. (2)

5.1.3 (a) Custom Sorted the range A2:C10 in the FILTER worksheet according to the Discharged column from Smallest to Largest. (5)

(b) Add another level of sorting. (1)

(c) Sorted the same range according to the column Pending from the smallest to the largest. DO NOT close the Sort dialog box. (3)

5.1.4 Moved the dialog box to the right if it is covering the worksheet content to ensure all information is visible and fits on one page. (2)

5.1.5 Created a print screen image of the worksheet window and pasted in the space provided in QUESTION 5. Insert your EXAMINATION NUMBER in the header. (1)

5.2 Formatted the PROVINCES worksheet as indicated below.

5.2.1 (a) Deleted the comment in C9. (1)

(b) Edited the comment in C5 to read as indicated below:

At least ONE can treat Listeriosis effectively (4)

5.2.2 (a) Selected column A and activate the Freeze First Column function. (2)

(b) Displayed only columns A, C and D. (1)

5.2.3 Created a print screen image of the PROVINCES worksheet to show the Freeze Panes function. Pasted the image in the space provided in QUESTION 5. Insert your EXAMINATION NUMBER in the header. (2)

5.2.4 Printed the spreadsheet showing the comments as displayed in the worksheet without Row and Column headings. (4)

5.3 Imported the chart on the AGE worksheet to the space provided in QUESTION 5. (3)

5.4 Formatted the EPIDEMY workbook as indicated below.

5.4.1 (a) Opened the EPIDEMY workbook and selected the CHART worksheet. (2)

(b) Protected the CHART worksheet with the password ODPL4 and confirmed the password. (3)

(c) Created print screen images of the Protect Sheet and Confirm Password dialog boxes with the password. Pasted images in the space provided in QUESTION 5. (1)

5.4.2 Encrypted the EPIDEMY workbook with the password ODPL44 and confirmed it. (3)

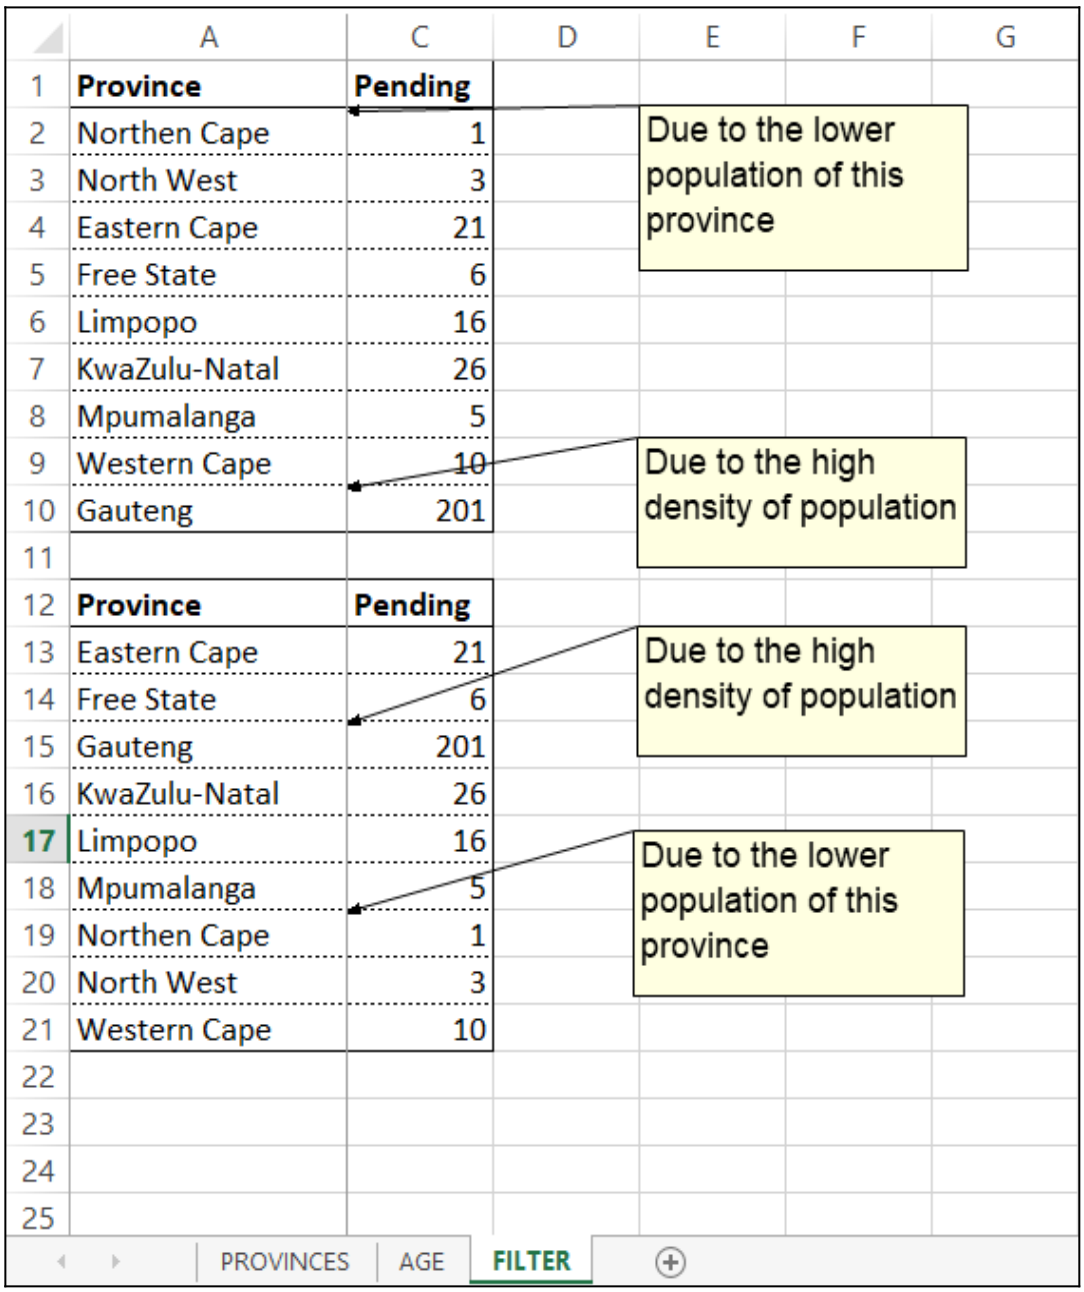

5.4.3 Created print screen images of the Encrypt Document and Confirm Password dialog boxes and pasted in the space provided in QUESTION 5. (1)

5.4.4 Deleted the CURVE worksheet. (1)

5.4.5 Created a print screen image of the workbook to show the available worksheets in the workbook. (1)

5.4.6 Saved and printed QUESTION 5.

QUESTION 6

6.1 Opened Microsoft Outlook.

Opened the MS Word document QUESTION 6 from the STUDENT FILES folder and where required, pasted ALL print screen images in the spaces provided.

6.1.1 Created contact below in the Address Book:

(a) Name: Colin Khumalo
(b) Company: YOU SHOULD KNOW
(c) Job title: Chairperson
(d) Business address: 111 Park Avenue, Yeoville, JOHANNESBURG, 2001
(e) E-mail: chairperson@youshouldknow.com
(f) Web page: www.youshouldknow.com
(g) Business: 011 564 9874
(h) Home: 011 123 4561
(i) Mobile: 083 333 3333
(j) Fax: 011 564 7896 (10)

6.1.2 Inserted a contact picture using the image named CHAIRPERSON in the STUDENT FILES folder. (2)

6.1.3 Created a print screen image to display the contact in the Address Book. Pasted the image in the space provided in QUESTION 6 and insert your EXAMINATION NUMBER in the header. (1)

6.2 Created an e-mail message as indicated below:

6.2.1 (a) Created the signature below using a font of choice, which will be automatically inserted in all e-mails.

Buthle Ngamso
SECRETARY
YOU SHOULD KNOW
b.ngamso@youshouldknow.com
T: (011) 564 9875
F: (011) 564 7896

(b) Created a print screen image of the Signature dialog box and pasted in the space provided in QUESTION 6. (4)

6.2.2 Created the e-mail message below.

TO: staff@youshouldknow.com
campaigngroup@info.com

CC: *Inserted the contact created in 6.1.1* (3)

6.2.3 Subject: LISTERIOSIS INFORMATION DAY (1)

6.2.4 Dear All

Please find attached the program for the information day which will take place at the Civic Centre in Yeoville, on Friday, 21 September 2019 at 16:00.

Regards (4)

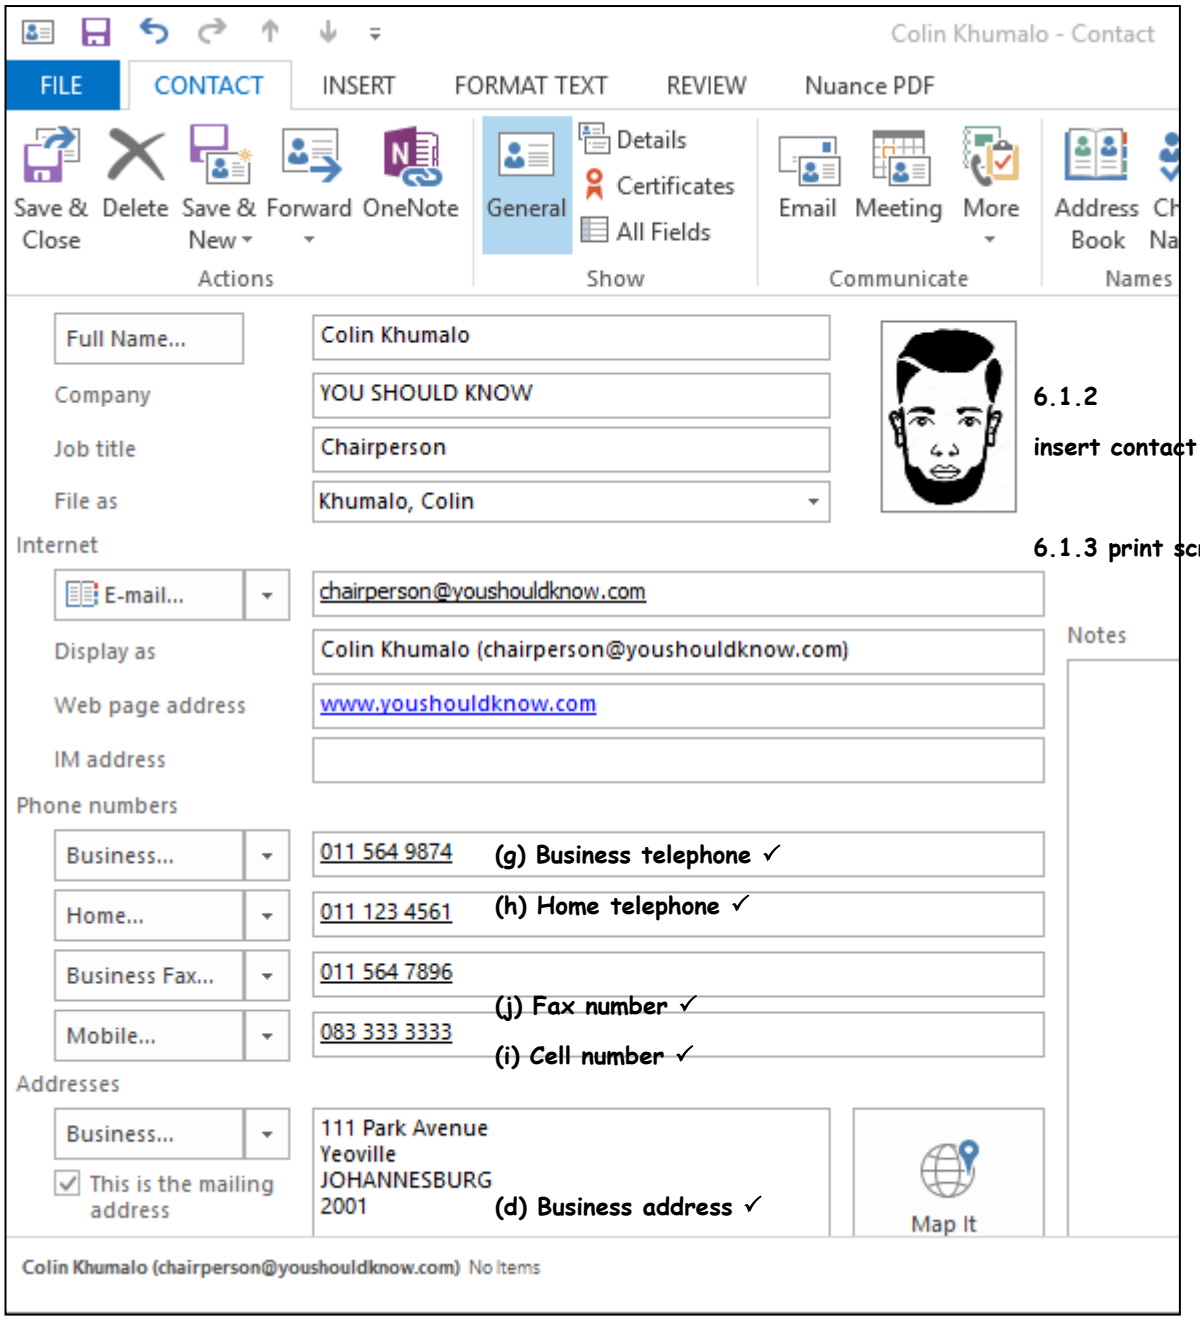

6.2.5 Attached the document ADVERT from the STUDENT FILES folder to the e-mail. (2)

6.2.6 Inserted the signature created in 6.2.1 in the message. (2)

6.2.7 Created a print screen image of this e-mail message and pasted in the space provided in QUESTION 6. (1)

6.2.8 Inserted EXAMINATION NUMBER in the header of QUESTION 6 and printed the document.

WHAT IS LISTERIOSIS?

3 bold 4 upper case

1 justification left 3 letter/line spacing 4 upper/lower case

- Listeriosis is a serious, but treatable and preventable disease caused by the bacteria called listeria.
- Listeria is present in the world around us, and it exists naturally in soil and water.
- Animals, food products and fresh produce such as fruit and vegetables can be contaminated from these sources.
