QUESTION 2

Read the article below and answer the questions.

VICTREE

January 2010 marked the birth of Victree Distance Learning (Pty) Ltd. Victoria is the founder member of this organisation. It is a dream that came true for her.

She comes from a very poor family, but she is intelligent and a hard worker. Victoria holds a master's degree in Education and is busy with research for her doctorate.
She started this organisation to help those who work and cannot afford to study full time. It is also cheaper than to study full time. They offer various online courses.

The organisation has a student support department that helps with student-related issues. Students can also apply for bursaries if they meet the criteria.
The organisation is registered with the Department of Higher Education & Training and is an accredited business.

She admits that distance learning can be very challenging because they do not offer face-to-face contact sessions. They must compete with other educational institutions. The first three years were very difficult for the business, but they are doing much better now.

They have two campuses and plan on opening a third. Their goal is to expand their business to neighbouring countries. She is convinced that there is a market for distance learning and that it is the way forward.
