PRACTICE EXAMINATION

NC(V) LEVEL 3

MULTIMEDIA CONTENT

PRACTICE EXAM

MARKS: 100 **TIME: 3 hours**

NC(V) Information Technology and Computer Science, Level 3. Section A: objective questions (30) · Section B: planning multimedia content, digital images and typography, audio and video production, animation and web content, legal and ethical issues (70).

Written by Academic Central for practice, following the NC(V) subject guidelines for NC(V) Level 3. It is not a Department of Higher Education and Training examination paper.

INSTRUCTIONS AND INFORMATION

1. Answer ALL the questions.
2. Read ALL the questions carefully.
3. Number the answers according to the numbering system used in this question paper.
4. Show ALL calculations.
5. Write neatly and legibly.

SECTION A

QUESTION 1

1.1 Various options are given as possible answers to the following questions. Choose the answer and write only the letter (A–D) next to the question number (1.1.1–1.1.10).

1.1.1 The document that describes the client's goals, target audience, budget and deadline for a multimedia project is the …

A design brief. B storyboard. C script. D site map.

1.1.2 A diagram showing how the pages of a website or app are linked is a …

A histogram. B site map (navigation map). C mood board. D timeline.

1.1.3 The space between lines of text is called …

A kerning. B tracking. C bleed. D leading.

1.1.4 Video resolution 1920 × 1080 is known as …

A Full HD 1080p. B HD 720p. C 4K UHD. D SD 480p.

1.1.5 In animation, the frames drawn by the animator at important points of the movement are …

A in-betweens. B layers. C keyframes. D masks.

1.1.6 The camera shot that shows a person from the waist up is a …

A extreme long shot. B close-up.
C medium shot. D bird's-eye view.

1.1.7 A file format suited to high-quality, uncompressed audio is …

A WAV. B MP3. C AAC. D OGG.

1.1.8 Adjusting the volume of different audio tracks so that they sound balanced is called …

A rendering. B cropping. C tweening. D mixing.

1.1.9 The language used to structure the content of a web page is …

A CSS. B HTML. C SQL. D PHP.

1.1.10 A collection of images, colours and textures used to show the look and feel of a design is a …

A wireframe. B script. C log sheet. D mood board.

(10)

1.2 Indicate whether the following statements are TRUE or FALSE. Choose the answer and write only 'true' or 'false' next to the question number (1.2.1–1.2.10).

1.2.1 A wireframe shows the basic layout of a page without detailed colours or images.

1.2.2 The rule of thirds places the main subject exactly in the centre of the frame.

1.2.3 A higher bit rate usually gives better video quality and larger files.

1.2.4 Rendering is the process of creating the final video file from the edited project.

1.2.5 CSS controls the appearance (style) of a web page.

1.2.6 Responsive design means a website adjusts to different screen sizes.

1.2.7 Background music downloaded from any website may be used in a public advert without a licence.

1.2.8 A model release form gives permission to use a person's photograph.

1.2.9 24 or 25 frames per second is common for film and video.

1.2.10 Using too many different fonts makes a design look more professional.

(10)

1.3 Choose a term from COLUMN B that matches a description in COLUMN A. Write only the letter (A–J) next to the question number (1.3.1–1.3.10).

	COLUMN A		**COLUMN B**
1.3.1	Written dialogue and directions for a video	A	script
1.3.2	Transition where one shot gradually fades into the next	B	dissolve
1.3.3	Replacing a green background with another image	C	thumbnail
1.3.4	Text that appears at the bottom of the screen to show speech	D	codec
1.3.5	Automatically generating frames between two keyframes	E	kerning
1.3.6	Adjusting the space between two specific letters	F	tweening
1.3.7	Removing unwanted outer parts of an image	G	cropping
1.3.8	Small picture used as a preview of a video	H	subtitles
1.3.9	Software used to compress and decompress media	I	chroma key
1.3.10	Work no longer protected by copyright	J	public domain

SECTION B

Case study: Promotional video for a TVET open day
Your college wants a 60-second promotional video and a simple one-page website for its open day. The target audience is Grade 9 to 12 learners and their parents in the area. The video must show the workshops, interview two students and end with the date and a link to the website. The budget is small and the deadline is three weeks away.

QUESTION 2: PLANNING MULTIMEDIA CONTENT

2.1 List FIVE items that should be included in the design brief for this project. (5)

2.2 Explain the purpose of each of the following planning tools in this project: (a) script; (b) storyboard; (c) shot list. (6)

2.3 Describe the target audience and explain how it will influence the style of the video. (4)

[15]

QUESTION 3: IMAGES AND TYPOGRAPHY

3.1 Explain the rule of thirds and how you would use it when photographing a student working in the welding workshop. (3)

3.2 Give FOUR guidelines for choosing and using fonts on the open-day website. (4)

3.3 The website banner must be 1 600 × 400 pixels. A photo is 4 000 × 3 000 pixels. Explain how you would prepare the photo for the banner and why. (4)

3.4 Explain the difference between saving a "master" file (e.g. PSD) and exporting a JPEG for the web. (4)

[15]

QUESTION 4: AUDIO AND VIDEO PRODUCTION

4.1 Give FOUR tips to record good-quality sound for the student interviews. (4)

4.2 Name and describe THREE different camera shots or angles you would use in the video, and say what each one would show. (6)

4.3 Calculate the approximate file size in MB of the 60-second video if it is exported at a bit rate of 8 Mbps (megabits per second). (3)

4.4 List FIVE steps in editing the video, from importing the footage to publishing. (5)

4.5 Give TWO reasons for adding subtitles to the video. (2)

[20]

QUESTION 5: ANIMATION, WEB CONTENT AND ETHICS

5.1 Explain the difference between frame-by-frame animation and tweened animation. (4)

5.2 Name FOUR elements that should appear on the open-day web page. (4)

5.3 Explain THREE ways to make the web page load quickly on learners' cellphones. (3)

5.4 Before filming, the students must sign consent forms. Explain why, with reference to the Protection of Personal Information Act (POPIA). (3)

5.5 The editor wants to use a popular song as background music. Explain the legal problem and suggest TWO solutions. (6)
