GETTING YOUR BODY FIT FOR WRESTLING

11 uc, bold, centre

Getting and keeping your body in the best condition possible can help you reach your full potential as a wrestler. If you are in shape and physically fit, you can better handle moves your opponent may try on you during a match. Here are some fundamental aspects of fitness and wellness that can help you stay fit during your **WRESTLING** season:

12 bullets, indent at 1,27 cm/0,5" 13 10 pt

- **Rest:** Getting plenty of good-quality rest is critical to your success on the mat. Take at least one day off a week during the season, and get 8 hours of sleep every night. Practices and training should not last more than 150 minutes during the season.

- **Disease prevention:** Closely check your skin every day for discolouration, swelling, areas of tenderness and changes in texture. Scrub your body with antibacterial soap and wash your practice gear daily. Never share shirts, shorts, towels or headgear with teammates. Impetigo, herpes and ringworm are just a few of the skin diseases common to wrestlers that you can prevent by following these simple steps.

ENDURANCE

14 uc, bold, underline

All wrestlers need to build their endurance if they want to be successful; in other words, you need to build your heart's capacity for maintaining intense levels of exercise over time. To be ready for competition, you need to be able to run or ride an exercise bike continuously at moderate intensity for 40 minutes.

STRENGTH TRAINING

14 uc, bold, underline

You and your coach need to develop training programmes that increase the maximum amount of force your muscles can exert against resistance. Your muscles get stronger when you experience *momentary muscular failure*[1].

18 footnote

The point of momentary muscular failure should occur on the 11th or 12th repetition of an exercise in the 2nd and 3rd set of a 3-set/12-repetition strength building plan. Some great fundamental strength training exercises include the bench press, shoulder press, triceps extensions, upright rows, pull-ups, leg extensions, leg curls and arm curls.

FLEXIBILITY **22 uc, bold, italics**

To become an agile wrestler with quick feet, you need to increase the ability of your muscles and joints to move through their full range of motion. You can develop your flexibility by doing light dynamic loosening exercises followed by stretching exercises before and after each practice.

23 new paragraph

Dynamic loosening exercises include:

23 new lines

- lunges,
- walking toe touches,
- high-knee jogging,
- lateral jogging,
- carioca jogging and
- arm circles.

24 bullets, indent at 1,27 cm/0,5"

23 new paragraph

As for stretching, focus on stretching the main muscle groups (hamstrings, quadriceps, hip flexors, lower back, shoulders, gluteal muscles and neck); hold each stretch for 15 to 30 seconds.

25 paragraph deleted

NUTRITION **22 uc, bold, italics**

You need to understand how carbohydrates, proteins and fats affect your **WRESTLING** ability and training during exercise, after exercise and before exercise. While the dietary needs of each athlete depend on a variety of factors, including age and gender, a good rule of thumb is to try to eat a diet consisting of 50 percent carbohydrates, 30 percent protein and 20 percent fats.

Concussion **27 1,5 line spacing, centre**

A head injury is a brain injury. So make sure you are checked by a medical professional right away after you suffer any type of head injury. Your doctor must also clear you before you can take to the mat again.

Keeping your head in the match **28 line numbering** **29 start at 55**

Because of the one-on-one nature of **WRESTLING** and the relatively brief length of a match, the mental approach to competition and the commitment you need to succeed are unique. The following list provides some keys to winning the mental game as a wrestler:

MENTAL WRESTLING **32 heading uc, bold, centre**

Inspiration	Positive attitude	Style	Competition	Mental toughness
External motivation	Confidence	Skills	Desire to win	Self-control
Rewards[i]	Positive mindset	Abilities	Stay focused	Mental edge
