1.4 Read the scenario below and answer the questions.

> Satara is a busy camp, and not without reason. It is in an excellent game viewing area, with the bush relatively open and the animals plentiful and diverse.
>
> The camp itself has a rustic charm, with the bulk of the accommodation set out in a series of circles. Satara is well wooded and the bird-life is prolific. At night the clink of fruit bats fuses with the chirping of cicadas and crickets. The calls of owls and nightjars add to the symphony punctuated intermittently by the whoop of hyena, the screech of jackal and the roars of lion.

QUESTION 2

2.1 Read the extract below and answer the questions.

> The **2018 FIFA World Cup** was the 21st FIFA World Cup, a quadrennial international football tournament contested by the men's national teams of the member associations of FIFA. It was hosted by Russia, starting from 14 June and ending with the final match on 15 July 2018.
>
> This was the first World Cup to be held in Eastern Europe, and the eleventh time that it has been held in Europe. For the first time the tournament took place on two continents – Europe and Asia. All but one of the stadium venues are in European Russia. At an estimated cost of over $14.2 billion, it is the most expensive World Cup ever. This is also the first World Cup where video assistant referees (VARs) have been utilised.
>
> The final tournament involved 32 national teams, which included 31 teams determined through qualifying competitions and the automatically qualified host team. Of the 32 teams, 20 made back-to-back appearances following the last tournament in 2014, including defending champions Germany, while both Iceland and Panama made their first appearances at a FIFA World Cup. A total of 64 matches were be played in 12 venues located in 11 cities. The final took place on 15 July at the Luzhniki Stadium in Moscow.

Bali volcano eruption: The latest travel advice warns tourists to be alert to last-minute updates

Mount Agung erupted again earlier today, according to Bali's National Disaster Mitigation Agency.

A 6,500-foot column of ash was thrown into the air following the explosion occurring at 9pm yesterday (2pm UK time today).

Last week, a number of flights were cancelled and the main airport was closed after the volcano erupted again.

The region is prone to volcanos and earthquakes due to its location in the Pacific.

Its last major eruption in 2017 caused more than 100,000 people to evacuate, with many flights to and from the island cancelled.

More than 59,000 tourists in the region were left stranded following the volcano eruption.

The most deadly explosion of Mount Agung occurred in 1963 that killed more than 1,000 people.

Villages were razed by the lava and ash, causing chaos to the region.
